Comments:

After an audit of LINN's approved Intent to Drill and special provisions (if applicable), it was determined an oversight was made to remove fluids from the drilling pit as specified in the approved pit application. Normal protocol was followed. The pit was closed on 11/20/2013. The pit was closed 3 months after spud date. Measures have since been put in place to ensure these type incidents won't reoccur. LINN is a prudent operator and take full responsibility of our actions. We apologize for any inconvenience this may have caused. Thanks.
