The appropriate of the second properties of t	and the district office on plug length and placement is necessary prior to plugging; either plugged or production casing is cemented in; be cemented from below any usable water to surface within 120 DAYS of spud date, ing order #133,891-C, which applies to the KCC District 3 area, alternate II cementing well shall be plugged. In all cases, NOTIFY district office prior to any cementing. Remember to: - File Drill Pit Application (form CDP-1) with Intent to Drill; - File Completion Form ACO-1 within 120 days of spud date; - File acreage attribution plat according to field proration orders; - Notify appropriate district office 48 hours prior to workover or re-entry;
4. If the well is dry hole, an agreement between the operator at 5. The appropriate district office will be notified before well is 6. If an ALTERNATE II COMPLETION, production pipe shall be Or pursuant to Appendix "B" - Eastern Kansas surface casis must be completed within 30 days of the spud date or the way about the completed within 30 days of the spud date or the way about the completed within 30 days of the spud date or the way about the completed within 30 days of the spud date or the way about the completed within 30 days of the spud date or the way about the completed within 30 days of the spud date or the way about the complete	Remember to: - File Drill Pit Application (form CDP-1) with Intent to Drill; - File completion Form ACO-1 within 120 days of spud date; - Notify appropriate district office 48 hours prior to workover or re-entry; - Submit plugging report (CP-4) after plugging is completed (within 60 days);
4. If the well is dry hole, an agreement between the operator of the appropriate district office will be notified before well is easier. The appropriate district office will be notified before well is easier. The appropriate district office will be notified before well is easier. The appropriate of the second properties of the second properties of the second properties. The appropriate of the well appropriate of the second properties of the second properties. If the well is dry hole, an agreement between the operator of the second properties of the second properties of the second properties of the second properties. The appropriate of the second properties of t	reither plugged or production casing is cemented in; be cemented from below any usable water to surface within 120 DAYS of spud date, ing order #133,891-C, which applies to the KCC District 3 area, alternate II cementing well shall be plugged. In all cases, NOTIFY district office prior to any cementing. Remember to:
4. If the well is dry hole, an agreement between the operator at 5. The appropriate district office will be notified before well is 6. If an ALTERNATE II COMPLETION, production pipe shall be 0. Or pursuant to Appendix "B" - Eastern Kansas surface casis must be completed within 30 days of the spud date or the way. Ubmitted Electronically	reither plugged or production casing is cemented in; be cemented from below any usable water to surface within 120 DAYS of spud date, ing order #133,891-C, which applies to the KCC District 3 area, alternate II cementing well shall be plugged. In all cases, NOTIFY district office prior to any cementing. Remember to:

Signature of Operator or Agent:

IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

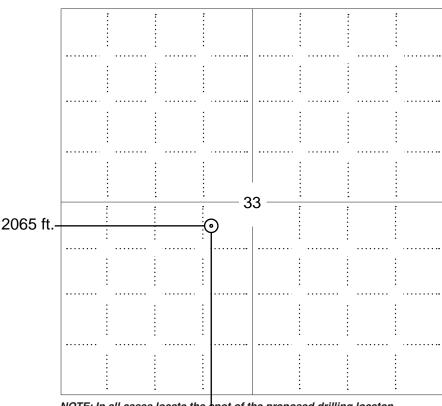

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15	
Operator:	Location of Well: County:
Lease:	feet from N / S Line of Section
Well Number:	feet from E / W Line of Section
Field:	Sec Twp S. R
Number of Acres attributable to well:	Is Section: Regular or Irregular
	If Section is Irregular, locate well from nearest corner boundary. Section corner used: NE NW SE SW

PLAT

(Show location of the well and shade attributable acreage for prorated or spaced wells.) (Show footage to the nearest lease or unit boundary line.)

NOTE: In all cases locate the spot of the proposed drilling locaton.

2310 ft.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections,
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
