Mr. George Dawson
Peoples Exchange Bank
Elmdale, Kansas

Dear Mr. Dawson:

I recently learned that Elmdale has completed a new well for its city water supply. I talked with Mr. Willard Hilton a few minutes ago inquiring as to whether he knew the details of it or not. He suggested that I write to you to obtain the data I want.

As of 1956, the Ground Water Division of the State Geological Survey is going to attempt to obtain for study and permanent record much more of the new basic data obtained through the development of our water resources each year. This will be done through contacts with all the drillers in the State, the drillers' association, State Board of Health, etc.

Would you complete the enclosed Water Well Record form and return the blue copy to me: You may keep the pink and white sheets for the city record.

Thank you very much.

Sincerely yours,

Howard G. O'Connor
Geologist
