2. On December 17, 2009, and December 30, 2009, the respective applications in this docket were filed pursuant to the rules and regulations of the State Corporation Commission and the Kansas Statutes, thus fulfilling all regulatory and statutory requirements.

3. Notice was proper in every respect and was published at least fifteen (15) days prior to the hearing for this application in *The Wichita Eagle* newspaper and *The El Dorado Times* newspaper, providing notice that a hearing would be held to determine the matter in this docket; there were no protests.

4. According to K.A.R. 82-3-111, wells shall not be eligible for TA status if the well has been shut-in for ten (10) or more years without an application for an exception pursuant to K.A.R. 82-3-100 and approval by the Commission.

5. The matter was heard on April 22, 2010, as noticed. Mr. Greg L. Bauer of Bauer, Pike & Johnson, Chtd., appeared for Vess and Ryan A. Hoffman, Litigation Counsel, appeared for Commission Staff and the public generally. Staff moved to consolidate the two (2) dockets for the purposes of having one (1) hearing, there was no objection.

6. There being no objection to notice, the Commission found that notice was proper and the Commission had jurisdiction of the parties and subject matter.

7. The prefiled testimony and exhibits of Casey Coats, Eastern Kansas Operations Engineer and witness for Vess, and Jeff Klock, KCC District #2 Supervisor, were admitted into the record.

SUMMARY OF THE EVIDENCE

8. Mr. Coats testified to his professional background and experience and was found to be a qualified expert witness.

9. Mr. Coats further testified on the applications for the above-captioned wells. In regard to the Adsit A 25 well, Mr. Coats testified as to the procedure Vess would employ to conduct casing integrity tests and compared the process of converting the well into an Arbuckle disposal well similar to the process performed on Vess' Hess well. Mr. Coats stated Vess is willing to conduct the casing integrity test on the Adsit A 25 well.

10. Mr. Coats also testified in regard to Vess' Pierpoint A 100W well. Mr. Coats testified the well already demonstrated its casing had mechanical integrity. Mr. Coats further testified he estimated the producing wells on the lease would produce for many years into the future, further necessitating Vess' need for a backup injection well. Mr. Coats also testified that the costs to convert the well for injection purposes far outweigh the costs to plug it in its current state.

11. Mr. Klock testified that he was satisfied with Mr. Coats' answers to the questions raised in his prefiled testimony and during his live testimony during the hearing. Mr. Klock further testified he would recommend the applications favorably for passage to the Commission, on the condition the Adsit A 25 well demonstrated its casing has mechanical integrity.

12. Based on the foregoing, the Commission finds that an exception to the 10-year TA status restrictions under K.A.R. 82-3-111 should be granted for the above-captioned wells.

13. The applications should be granted in accordance with the above findings for three (3) years without the need to file further applications for exceptions, but still subject to the yearly filing requirements according to the provisions of K.A.R. 82-3-111.

IT IS, THEREFORE, BY THE COMMISSION ORDERED: That the applications of Vess Oil Corporation ("Vess"), for an exception to the 10-year limitation for temporary abandonment ("TA") status for the above-captioned wells is granted for the next three (3) years

without filing further applications for extensions for the Pierpoint A 100W well. The application as it pertains to the Adsit A 25 well is granted for the next three (3) years subject to the condition that it successfully pass a mechanical integrity test, within the next sixty (60) days. The Commission further orders that Vess must continue to file yearly TA applications for the above-captioned wells pursuant to the provisions of K.A.R. 82-3-111.

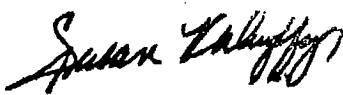

Any party affected by this Order may file with the Commission a petition for reconsideration pursuant to K.S.A. 77-529(a). Such petition shall be filed within fifteen (15) days after service of this Order and must state the specific grounds upon which relief is requested. This petition for reconsideration shall be filed with the Executive Director of the Conservation Division, Finney State Office Building, 130 S. Market, Room 2078, Wichita, Kansas 67202-3802.

The Commission retains jurisdiction of the subject matter and the parties for the purpose of entering such further Order or Orders as from time-to-time it may deem proper.

BY THE COMMISSION IT IS SO ORDERED.

Wright, Chmn.; Harkins, Com., Loyd, Com.
