• Controling data is based upon the best maps and photographs available to us and upon a regular section of land containing 640 acres.
 • Approximate section lines were determined using the normal standard of care of oilfield surveys practiced in the state of Kansas. The section corners, which sit upon the precise section lines, were not necessarily located. The surveyor is not responsible for the accuracy of the section lines or for any errors or omissions in the data. The surveyor is not responsible for the accuracy of the section lines or for any errors or omissions in the data. The surveyor is not responsible for the accuracy of the section lines or for any errors or omissions in the data.
 • Elevation derived from National Geodetic Vertical Datum.

Date July 15, 2010
