Re: Drilling Haul Off Pit

Dear Jim,

As I discussed with you on the telephone, we have a location upon which we are preparing to drill a test well on property in Clark County. You are the surface owner of the quarter section where drilling will occur. The location is in the Southwest of Section 18-33S-25W. Due to ground water concerns the KCC will not approve a pit to be dug at the site of the proposed drilling.

Last year we had a similar situation on the Theis # 2-18 well. At that time you approved using a more acceptable spot for the pit and utilizing a shallower haul off pit to capture the mud from drilling operations. The haul off pit has not yet been closed and appears adequate for use on the upcoming well. The KCC has reviewed our plan, but in order to obtain approval from the KCC, we need to provide written approval from you to utilize a haul off pit.

If we have your permission to proceed with this activity, please sign below and return to our office at your earliest convenience so that we can complete the application process.

Sincerely,  
MIDCO EXPLORATION, INC.
