NOTE: In all cases locate the spot of the proposed drilling locaton.

### In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
- 5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

Specific a Largie Reputy

Agreement made January 2, 2000, between H. Louise Goodnight, a single person, Helen C. Reld, a single person, M. Sue Bauder, a single person, John R. Bauder, a single person, and Wilfred L. Bauder, a single person, here referred to as lessor (whether one or more); and Ed Triboulet and Carey Triboulet as joint tenants with the right of survivorship and not as tenants in common, an undivided one-half interest and John R. Bauder, an undivided one half interest, here referred to as lessee.

#### RECITALS

- A. Lessor, for and in consideration of One Dollars (\$1.00) the receipt of which is hereby acknowledged, and the covenants and agreements contained in this lease on the part of lessee to be paid, kept, and performed, has granted, demised, leased and let, and by these presents does grant, demise, lease, and let unto the lessee for the sole and only purpose of mining and operating for oil and gas and of laying pipelines, and of building tanks, power stations, and structures on the premises to produce, save and take care of oil and gas products, all that tract of land situated in Elk County, Kansas, described as follows:
  - a. The Northeast Quarter of Section Twenty-two, and the South Sixty (60) Acres of the Southeast Quarter of Section Fifteen (15), Township Thirty south, Range Ten East of the Sixth Principal Meridian, except the East Six Hundred Feet (600") thereof

B. It is agreed that this lease shall remain in force for a primary term of two years from this date and if lessee shall commence to drill within the primary term or any extension thereof, lessee shall have the right to continue drilling to completion with reasonable diligence and the term shall extend as long thereafter as oil and gas, or either of them is produced by lessee from the land or from a communitized unit as provided in this lease.

In consideration of the premises, the parties covenant and agree as follows:

#### SECTION ONE.

### DELIVERY OF OIL ROYALTY IN KIND

Lessee agrees to deliver to the credit of lessor, free of cost, into tank reservoirs or into the pipeline to which lessee may connect wells on the land, the equal of one-eighth (1/8th) of all oil produced and saved from the leased premises.

#### SECTION TWO.

#### GAS ROYALTY

Lessee agrees to pay lessor one-eighth percent (1/8th) of the gross proceeds for the gas from each well where gas only is found, while the same is being used off the premises, payable monthly at the prevailing market rate for gas. Where such gas is not sold or used for a period of one year, lessee shall pay or tender as royalty an amount equal to the yearly delay rental as provided by the provisions of this lease, payable annually at the end of each year during which such gas is not sold or used, and while such royalty is so paid or tendered this lease shall be considered producing property under the above paragraph setting forth the primary term of the lease. Lessor is to have gas free of cost from any well for all stoves and all inside lights in the dwellings on the land during the same time, by making lessor's own connections with the well at lessor's own risk and expense.

#### SECTION THREE.

#### GAS USED BY LESSEE OFF PREMISES

Lessee agrees to pay lessor for gas produced from any oil well and used off the premises in the manufacture of gasoline or any other product a royalty of one-eighth (1/8th) of the proceeds payable monthly at the prevailing market rate at the mouth of the well.

#### SECTION FOUR

### PROPORTIONATE REDUCTION

If lessor owns an interest in the above-described land less than the entire undivided fee simple estate therein, then the royalties and rentals provided for in1this lease shall be paid lessor only in the proportion

that lessor's interest bears to the whole and undivided fee.

#### SECTION FIVE.

#### DIVIDED INTERESTS

If the leased premises are now or shall hereafter be owned in severalty or in separate tracts, the premises, nevertheless, shall be developed and operated as one lease and all royalties accruing under the lease shall be treated as an entirety and shall be divided among and paid to such separate owners in the proportion that the acreage owned by each separate owner bears to the entire leased acreage. Provided, however, if the leased premises consist of two or more non-abutting tracts, this section shall apply separately to each non-abutting tract, and further provided that if a portion of the leased premises is hereafter consolidated with other lands for the purpose of operating the consolidated tract as one lease, this section shall be inoperative as to the portion so consolidated. There shall be no obligation on the part of lessee to offset wells on separate tracts into which the land covered by this lease may be hereafter divided by sale, devise, or otherwise or to furnish separate measuring or receiving tanks.

#### SECTION SIX.

#### LESSEE'S OPERATIONS

Lessee shall have the right to use, free of cost, gas, oll, and water produced on the land for lessee's operation on the land except water from the wells of lessor. When requested by lessor, lessee shall bury lessee's pipeline below deep plow depth. No well shall be drilled nearer than \_\_\_\_\_\_\_ feet to the house or barn-now on the premises without the prior written consent of lessor. Lessee shall pay for damages caused to growing crops by lessee's operations. Lessee shall have the right at any time to remove all machinery and fixtures placed on the premises, including the right to draw and remove casing.

#### SECTION SEVEN.

#### AUTHORIZATION OF POOLING OPERATIONS

For the purpose of oil or gas development and production under this lease, lessor grants to lessee the right to pool or communitize any part of the premises with other land to comprise an oil development unit of not more than approximately 320 acres or a gas development unit of not more than approximately 640 acres, but lessee shall in no event be required to drill more than one well on the unit. If such oil or gas well shall be drilled on the premises herein leased it shall nevertheless be deemed to be on the leased premises within the meaning of all covenants expressed or implied in this lease and lessor shall participate in the one-eighth (1/8) royalty from such oil or gas development unit only in the proportion that the number of acres owned by lessor within the limitations of such development unit bears to the total number of acres included in the unit. At the option of lessee, a diagonal well spacing pattern may be followed.

#### SECTION EIGHT.

#### REFERENCE TO GOVERNMENTAL REGULATIONS

Notwithstanding anything to the contrary contained in this lease or implied by law, all present and future rules and regulations of any governmental agency pertaining to well spacing, use of material, and equipment or otherwise shall be binding on the parties to this lease with like effect as though incorporated at length in this lease.

#### SECTION NINE.

#### WARRANTY OF TITLE

Lessor warrants and agrees to defend the title to the lands described in this lease and agrees that lessee shall have the right at any time to redeem, for lessor, by payment of any mortgage, taxes, or other liens on the lands in the event of default of payment by lessor, and be subrogated to the rights of the holder, and lessor, on behalf of lessor and hoirs, successors, and assigns of lessor, surrenders and releases all rights of dower and homestead in the premises described in this lease, insofar as the right of dower and homestead may in any way affect the purposes for which this lease is made.

### SECTION TEN.

### ASSIGNMENTS

, if the estate of either party to this lease is2assigned-and the privilege of assigning in whole or

in part is expressly allowed—the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties shall be binding on lessee until after lessee has been furnished with a written transfer or assignment or a true copy thereof; and it is agreed that in the event this lease shall be assigned as to a part or as to parts of the above-described lands and the assignee or assignees of such part or parts shall default in the payment of the proportionate part of the rents due, such defaults shall not operate to defeat or affect this lease insofar as it covers a part or parts of lands on which lessee or any assignee shall make due payments of rentals.

的"我们是这个一个"

#### SECTION ELEVEN.

#### SURRENDER OR RELEASE

Lessee may at any time surrender this lease as to all or any part of the lands covered by the lease, by delivering or mailing a release to lessor, if the lease is not recorded, or by placing a release of record in the proper county, if the lease is recorded; and if surrendered only as to a part of the lands, any delay rentals or acreage payments which may thereafter be payable shall be reduced proportionately.

Re: Drilling Pit Application API 15-049-22552-00-00 BAUDER 8-AAA NE/4 Sec.22-30S-10E Elk County, Kansas

### Dear ED TRIBOULET:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed <u>without slots</u>, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as practical after drilling operations have ceased.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 432-2300 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to **Drill**. If you have any questions or concerns please feel free to contact the District Office at (620) 432-2300.
