# Attachment "A"

Ash,as Trustee for the E. Dillman Ash Trust, as Lessor, and Griffin Management, LLC, as Lessee, covering the E2NE of Sec. 33 & the W2NWof Sec. 34, Township 32 South, Range 12 West, located in Barber County, Kansas. Containing 160 acres m/l. The provision of this Attachment "A" shall control and supersede terms of the attached oil Attached to and made part of that certain oil and gas lease dated February 19,2011 by and between E. Dillman and gas lease when terms conflict.

- 1. Lessor and Lessee agree that any and all damage claims that arise from Lessee's operation shall be settled within three (3) months after egress of drilling equipment.
- equipment, as a deposit toward damages to land and grass caused by Lessee's operations thereon. In the event damages are greater than the amount paid, Lessee shall settle promptly for excess damages. In the event damages are less than or equal to the deposit paid, no additional amount will be owed. 2. Minimum surface damages of \$2,500.00 per well shall be paid by Lessee in advance of ingress of drilling
- restoration set forth within six (6) months from the date of abandonment. Lessee is required to remove all equipment and pipe within six (6) months of abandonment. 3. lessee shall pay for all loss of crops and pasture and damages to the land occasioned by its operations and reasonably restore the premises as nearly as to its original contour and the condition existing at the time the lease is executed including but not limited to the filling of all pits/ponds, and the removal of all structures placed thereon during the term of said lease; and upon abandonment, Lessee shall similarly comply with the provisions of
- 4. Lessee shall not be permitted to use any existing well or any well drilled on the leased premises as a salt water disposal well for the disposal of salt water produced off the premises unless separately agreed between Lessor and Lessee and compensating Lessor therefor.
- 5. Lessor reserves the right to designate the direction and location of every roadway on the premises, provided only that such road shall upon the request of the Lessee, be designated and the width therof shall be sufficient for normal operations. Lessee will require ingress and egress to well locations without delay. Roads shall be properly maintained for travel and shall be contructed to minimize washouts and runoff.
- 6. No water may be used from ponds, creeks, streams, or wells of Lessor without written consent of Lessor and
- 7. In the drilling of any well, in the restoration of the surface in all operations, including the plugging of any w Lessee shall fully comply with the requirements of the Kansas Corporation Commission unless the lease or its exhibit imposes any greater obligation on Lessee.
- 9. It is agreed that Lessor shall bear no cost of gas treatment, dehydration, compression, transportation, marketing or water hauling charged to the lease by Lessee. It is further agreed that Lessor shall receive Lessors' proportionate royalty share of all monies received by lessee for oil and/or gas production attributable to this lease, including any premiums, rebates and refunds of any kind or nature paid to Lessee and any take-or-pay payments, production payments, contract buy downs which directly reduce the amount of royalty revenue Lessor would otherwise receive from oil and/or gas production from this lease. Lessor will be responsible only for properly assessed taxes against
- Any pipelines or roadway constructed for servicing wells other than those on premises owned by Lessor shall be subject to separate agreement and compensating Lessor therefor.
- 11. Lessee and its assigns are strictly prohibited from hunting on the premises.
- 12. In the event Lessee drills a well on the leased premises, Lessee shall segregate the topsoil from other excavated soil and leave any excavated topsoil on the leased premises. As soon as possible after drilling operations, Lessee shall close all pits it has dug replacing the excavated soil to confines in which it was removed, i.e. by returning the topsoil to the surface of the filled pits and burying any subsurface rock brought to the surface.
- In the event Lessee drills a water well on the leased premises, Lessee shall, upon request by Lessor leave said
- 14. In the event Lessee installs a cattle guard, also known as an autogate, on leased premises, Lessee shall, upon request by Lessor, leave said cattle guard for Lessor after termination of this lease. Gates shall be locked and key provided to Lessee for required access.
- 15. All pipelines shall be laid to a minimum depth of 36" below surface.

Re: Drilling Pit Application ASH B 3 NE/4 Sec.33-32S-12W Barber County, Kansas

## Dear CHARLES N GRIFFIN:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed <u>without slots</u>, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again within 96 hours after drilling operations have ceased. KEEP PITS away from draw/drainage.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8888 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to **Drill**. If you have any questions or concerns please feel free to contact the District Office at (620) 225-8888.
