To Whom It May Concern:

The #4 Voss well was being serviced and the tubing was found to be stuck in the casing. Indications show that there is a casing leak. Due to the low production and a casing leak we are commencing plans to Plug & Abandon this well in February 2012.

Pursuant to the Kansas Surface Owner Notice Act (House Bill 2032), Ritchie Exploration Inc. hereby notifies you of our intent. Please find enclosed copy of the CP-1 (Plugging Application Form) for this well.

Thanks for your time. If you have any questions or comments pertaining to this matter, please contact me at (316) 691-9520.

Sincerely,

Dear Pete Fiorini:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

**This notice is void after August 21, 2012. The CP-1 filing does not bring the above well into compliance with K.A.R 82-3-111 with regard to the Commission's temporary abandonment requirements.**

Sincerely,  
Production Department Supervisor
