

DATE	DESCRIPTION
10/15/2014	Initial Survey
10/22/2014	Site Visit
11/05/2014	Final Report

SCOPE OF WORK
 The purpose of this study is to provide a detailed description of the existing conditions and to identify potential impacts of the proposed project. The study includes a site visit, data collection, and analysis.

ASSUMPTIONS
 The following assumptions were made during the study:
 - All data was collected from reliable sources.
 - The site conditions are representative of the entire project area.
 - The proposed project is as described in the project description.
