SCALE 1" = 1000'

Controlling data is based upon the best maps and photographs available to us and upon a careful inspection of land containing 40 acres.

Approximate section lines were determined using the normal standard of care of oilfield surveyors practicing in the state of Kansas. The section corners, which determine the precise section lines, were not necessarily located, and the exact location of the drillsite location in the section is not guaranteed. Therefore, the operator assuming this service and accepting this plat and all other parties relying thereon agree to hold Central Kansas Oilfield Svcs., Inc., its officers and employees harmless from all losses, costs and expenses and said parties released from any liability from the location of the drillsite location.

Elevations derived from National Geodetic Vertical Datum.

Date April 18, 2012
