 Section corner used: NE NW SE SW

Tank battery
 Access Road
 PLAT
 (Show location of the well and shade attributable acreage for prorated or spaced wells.)
 (Show footage to the nearest lease or unit boundary line.)

Controlling data is based upon the best maps and photographs available to us and upon a regular section of land subdividing the same.
 Measurements taken were determined using the National Standard of Care of Oilfield Services, Inc. in the State of Kansas. The section corners, when located on the public section lines, may not necessarily represent the exact location of the original section lines in the section 12 feet square, therefore, the quarter section lines are not necessarily 1/4 mile long and may vary slightly from the 1/4 mile length. All distances are given in feet and are not necessarily true distances from any corner. All distances are given in feet and are not necessarily true distances from any corner. All distances are given in feet and are not necessarily true distances from any corner.
