C. W. SMITH

June 25, 1958

Braden Oil Company Box 266 Hutchinson, Kansas Re: Braden No. 5 Braden "B" SE NE SW 1-20S-6W Rice County, Kansas

Gentlemen:

The following is a Geological Report, with a Time Log attached, on the above captioned well.

I was present during the drilling from 3200' to 3323', rotary total depth. Samples were examined from 2700' to rotary total depth.

All formation tops and zones of porosity and staining are based on rotary bushing measurements. Any corrections in measurements during the drilling of this well have been incorporated into this report.

Elevation	1578 DF 1580 RB
Lansing-Kansas City	2772 (-1192)
Conglomerate	3299 (-1719)
Mississippian	3315 (-1735)
Rotary Total Depth	3323 (-1743)

Structurally, the No. 5 "B" ran 5' lower, on top of the Mississippi, than the No. 1 "B", one location south; and 13' lower than the No. 2 "B", one location north.

ZONES OF INTEREST

Lansing-Kansas City	There were	no shows	of oil	in the	Lansing-Kansas	City.
---------------------	------------	----------	--------	--------	----------------	-------

Conglomerate	There were no sand developments nor shows of oil in	
	the Conglomerate.	

Mississippian

3315-3318	Tripolitic porous chert with light oil saturation. Trace of soft green shale.
3318-3323	White opaque chert with traces of edge porosity and stain.

It was recommended that casing be set at 3322', one foot off bottom and seven feet in the Mississippi formation, for further testing.

Sincerely,

C. W. Smith

Re: Plugging Application API 15-159-05063-00-00 BRADEN B 5 SW/4 Sec.01-20S-06W Rice County, Kansas

Dear Terry P Bandy:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

This notice is void after February 09, 2013. The CP-1 filing does not bring the above well into compliance with K.A.R 82-3-111 with regard to the Commission's temporary abandonment requirements.

Sincerely, Production Department Supervisor

cc: District 2
