Lease Road

• Controlling data is based upon the best maps and photographs available to be and used to register sections of land containing 640 acres.
 • Appropriate section lines were determined using the normal standard of care of oilfield surveyors practicing in the state of Kansas. The section corners, which establish the precise section lines, were not necessarily located, and the exact location of the drillsite location in the section is not guaranteed. Therefore, the operator securing this service and securing this plat and all other parties relying thereon agree to hold Central Kansas Oilfield Services, Inc., its officers and employees harmless from all losses, costs and expenses and hold entities released from any liability from negligence or consequential damages.
 • Elevations derived from National Geodetic Vertical Datum.
