AFFIDAVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et. seq.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office **prior** to spudding of well;
2. A copy of the approved notice of intent to drill **shall be** posted on each drilling rig;
3. The minimum amount of surface pipe as specified below **shall be set** by circulating cement to the top; in all cases surface pipe **shall be set** through all unconsolidated materials plus a minimum of 20 feet into the underlying formation.
4. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary **prior to plugging**;
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in;
6. If an ALTERNATE II COMPLETION, production pipe shall be cemented from below any usable water to surface within **120 DAYS** of spud date. Or pursuant to Appendix "B" - Eastern Kansas surface casing order #133,891-C, which applies to the KCC District 3 area, alternate II cementing must be completed within 30 days of the spud date or the well shall be plugged. **In all cases, NOTIFY district office** prior to any cementing.

PLAT

Show location of the well. Show footage to the nearest lease or unit boundary line. Show the predicted locations of lease roads, tank batteries, pipelines and electrical lines, as required by the Kansas Surface Owner Notice Act (House Bill 2032). You may attach a separate plat if desired.

LEGEND

- Well Location
- Tank Battery Location
- Pipeline Location
- Electric Line Location
- Lease Road Location

NOTE: In all cases locate the spot of the proposed drilling location.

2676 ft.

In plotting the proposed location of the well, you must show:

1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
3. The distance to the nearest lease or unit boundary line (in footage).
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

Well Location:
____ - ____ - ____ - ____ Sec. ____ Twp. ____ S. R. ____ East West
County: _____
Lease Name: _____ Well #: _____

If filing a Form T-1 for multiple wells on a lease, enter the legal description of the lease below:

Surface Owner Information:

Name: _____
Address 1: _____
Address 2: _____
City: _____ State: _____ Zip: _____ + _____

When filing a Form T-1 involving multiple surface owners, attach an additional sheet listing all of the information to the left for each surface owner. Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

Select one of the following:

- I certify that, pursuant to the Kansas Surface Owner Notice Act (House Bill 2032), I have provided the following to the surface owner(s) of the land upon which the subject well is or will be located: 1) a copy of the Form C-1, Form CB-1, Form T-1, or Form CP-1 that I am filing in connection with this form; 2) if the form being filed is a Form C-1 or Form CB-1, the plat(s) required by this form; and 3) my operator name, address, phone number, fax, and email address.
- I have not provided this information to the surface owner(s). I acknowledge that, because I have not provided this information, the KCC will be required to send this information to the surface owner(s). To mitigate the additional cost of the KCC performing this task, I acknowledge that I am being charged a \$30.00 handling fee, payable to the KCC, which is enclosed with this form.

If choosing the second option, submit payment of the \$30.00 handling fee with this form. If the fee is not received with this form, the KSONA-1 form and the associated Form C-1, Form CB-1, Form T-1, or Form CP-1 will be returned.

I Submitted Electronically

OIL AND GAS LEASE

THIS LEASE is entered into on the date of its execution by the last of the parties hereto ("Effective Date"), by and between the STATE OF KANSAS, DEPARTMENT OF REVENUE (hereinafter "Lessor"), and RITCHIE EXPLORATION, INC (hereinafter "Lessee").

Lessor and Lessee, in consideration of the mutual promises, covenants and conditions expressed below, agree as follows:

1. Granting Provision

Lessor leases and lets to Lessee the land described below ("Leased Premises") for the purpose of mining and operating for, and producing oil and gas and their constituent products, including, but not limited to, natural gas liquids, helium and other salable by-products, casinghead gas and casinghead gasoline, laying pipe lines, building tanks and storing oil (for ultimate sale) on the Leased Premises:

Arkansas Riverbed as it meanders through
Township 27 South, Range 24 West; Section
12, in Ford County Kansas

and the right to pool and unitize this Lease with other oil and gas leases, in their respective entirety or parts.

Lessor is not granting Lessee the right to conduct seismic exploration on the Leased Premises without the written consent of Lessor and the payment of additional compensation to the Lessor.

Lessor is not granting Lessee the right to erect on the Leased Premises any plant or facility for gasoline extraction or for gas processing, its constituent products or petroliferous substances, except the normal and necessary heater treater and separator customarily used.

Lessor reserves all rights to grant, lease, mine and/or produce any minerals from the Leased Premises except interests in gas and oil and their constituent products.

2. Pooling and Unitizing Criteria

Lessee may unitize the Leased Premises or any portion or portions thereof, as to all strata or any stratum or strata, with any other lands as to all strata or any stratum or strata, for the production primarily of oil and/or primarily of gas (and their constituent products) with or without distillate. The words "unit", "unitize" and "unitization", as used in this Lease, includes Lease pooling and unitization. The creation of a unit by Lessee shall be based on the following criteria:

- (i) A unit for an oil well (other than a horizontal completion) shall not exceed 160 acres plus a maximum acreage tolerance of 10%, and a unit for a gas well shall not exceed 640 acres plus a maximum acreage tolerance of 10%.

(ii) A unit for a horizontal completion shall not exceed 1280 acres plus a maximum acreage tolerance of 10%; provided that a larger unit may be formed for an oil well or gas well or horizontal completion to conform to any well spacing or density pattern that may be prescribed or permitted by any governmental authority having jurisdiction.

(iii) The terms "oil well" and "gas well" (as used in this section) shall have the meanings prescribed by applicable law or the appropriate governmental authority or, if no definition is so prescribed, "oil well" means a well with an initial gas-oil ratio of less than 100,000 cubic feet per barrel and "gas well" means a well with an initial gas-oil ratio of 100,000 cubic feet or more per barrel, based on a 24-hour production test conducted under normal producing conditions using standard lease separator facilities or equivalent testing equipment; and, the term "horizontal completion" means a well in which the horizontal component of the gross completion interval in the reservoir exceeds the vertical component.

Lessee shall file written unit designations in all counties in which a designated unit is located unless the unitization occurs from governmental order or rule.

Operations upon and production from a unit shall be treated as if such operations were upon, or such production were from the Leased Premises regardless of whether the well or wells are located on the Leased Premises. The entire acreage within a unit shall be treated for all purposes as if it were covered by and included in this Lease except that the royalty on production from a unit shall be as set out in this Lease and except that in calculating the amount of any shut in gas royalties, only the part of the Leased Premises acreage described in this Lease shall be counted.

Unit production royalty payments shall be allocated to the Leased Premises in the proportion the Leased Premises acreage bears to the total number of surface acres in the unit.

3. Lease Term, Bonus and Delay Rental

The Primary Term of the Lease shall commence on the Effective Date and terminate on the date set forth in Schedule A, incorporated herein as though fully set out ("Termination Date").

The Primary Term non-refundable bonus, drilling delay rent and expenses shall be paid on or before the Effective Date in the amount set forth in Schedule A. If oil, or gas, and/or their respective constituent products are produced during the Primary Term, the Lessee shall pay royalty as set forth in Section 4 below.

This Lease shall not terminate upon the Termination Date of the Primary Term if:

- about*
- (i) during the Primary Term, oil, gas, their constituent products including, without limitation, casinghead gas, or casinghead gasoline, are produced and sold on, at or from the Leased Premises and/or land unitized therewith, and the Lessee pays the Lessor monthly royalty commencing from the day of production (prorated for any partial month) and paid on or ~~the first day of each calendar month following the production month as set forth in Section 4; or, 2014~~
 - (ii) during the Primary Term, oil, gas, their constituent products of oil and gas, casinghead gas, or casinghead gasoline are not produced and sold on, at or from the Leased Premises
- M*

OIL AND GAS LEASE

AGREEMENT, Made and entered into the 29th day of October, 2012,
by and between The County of Ford

whose mailing address is 100 Gunsmoke, Dodge City, Kansas 67801 hereinafter called Lessor (whether one or more),
and Ritchie Exploration, Inc.

PO Box 783188, Wichita, Kansas 67278-3188 hereinafter called Lessee:

Lessor, in consideration of one and more Dollars (\$ 1.00 + _____) in hand paid, receipt of which is here acknowledged and of the royalties herein provided and of the agreements of the lessee herein contained, hereby grants, leases and lets exclusively unto Lessee for the purpose of investigating, exploring by geophysical and other means, prospecting, drilling, mining and operating for and producing oil, liquid hydrocarbons, all gases, and their respective constituent products, injecting gas, water, other fluids, and air into subsurface strata, laying pipe lines, storing oil, liquid hydrocarbons, all gases, and their respective products thereon to produce, save, take care of, treat, manufacture, process, store and transport said oil, liquid hydrocarbons, gases and their respective constituent products and other products manufactured therefrom, and housing and otherwise caring for its employees, the following described land, together with any reversionary rights and after-acquired interest, therein situated in County of Ford State of Kansas described as follows to-wit:

All that part of the NW/4 lying South of a line described as beginning at a point where the west line of Section 1-27S-24W intersects the center line of U.S. Highway 154, thence South along the west line of said Section 1 and Section 12, a distance of 2,315', thence East at right angles to said section line, a distance of 250', thence South parallel to said section line a distance of 440', thence Southeasterly to a point on the East line of said NW/4 that is 1,920' South of the intersection of the center line of U.S. Highway 154 and the East line of the NW/4 of said Section 12.

In Section 12 Township 27S Range 24W and containing 31 acres, more or less, and all accretions thereto.

Subject to the provisions herein contained, this lease shall remain in force for a term of three (3) months lessor from this date (called "primary term"), and as long thereafter as oil, liquid hydrocarbons, gas or other respective constituent products, or any of them, is produced from said land or land with which said land is pooled.

In consideration of the premises the said Lessee covenants and agrees:

1st. To deliver to the credit of lessor, free of cost, in the pipe line to which Lessee may connect wells on said land, the equal one-eighth (1/8) part of all oil produced and saved from the leased premises.

2nd. To pay lessor for gas of whatsoever nature or kind produced and sold, or used off the premises, or used in the manufacture of any products therefrom, one-eighth (1/8) of the market price at the well, (but, as to gas sold by Lessee, in no event more than one-eighth (1/8) of the proceeds received by Lessee from such sales), for the gas sold, used off the premises, or in the manufacture of products therefrom, said payments to be made monthly. Where gas from a well producing gas only is not sold or used, Lessee may pay or tender as royalty One Dollar (\$1.00) per year per net mineral acre retained hereunder, and if such payment or tender is made it will be considered that gas is being produced within the meaning of the preceding paragraph.

This lease may be maintained during the primary term hereof without further payment or drilling operations. If the Lessee shall commence to drill a well within the term of this lease or any extension thereof, the Lessee shall have the right to drill such well to completion with reasonable diligence and dispatch, and if oil or gas, or either of them, be found in paying quantities, this lease shall continue and be in force with like effect as if such well had been completed within the term of years first mentioned.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided for shall be paid the said lessor only in the proportion which lessor's interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for Lessee's operation thereon, except water from the wells of lessor.

When requested by lessor, Lessee shall bury Lessee's pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now on said premises without written consent of lessor.

Lessee shall pay for damages caused by Lessee's operations to growing crops on said land.

Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties shall be binding on the Lessee until after the Lessee has been furnished with a written transfer or assignment or a true copy thereof. In case Lessee assigns this lease, in whole or in part, Lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

Lessee may at any time execute and deliver to lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered.

All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this lease shall not be terminated, in whole or in part, nor Lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or if such failure is the result of, any such Law, Order, Rule or Regulation.

Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the Lessee shall have the right at any time to redeem for lessor, by payment any mortgages, taxes or other liens on the above described lands, in the event of default of payment by lessor, and be subrogated to the rights of the holder thereof; and the undersigned lessors, for themselves and their heirs, successors and assigns, hereby surrender and release all right of dower and homestead in the premises described herein, in so far as said right of dower and homestead may in any way affect the purposes for which this lease is made, as recited herein.

Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof with other land; lease or leases in the immediate vicinity thereof, when in Lessee's judgment it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises, such pooling to be of tracts contiguous to one another and to be into a unit or units not exceeding 40 acres each in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas well. Lessee shall execute in writing and record in the conveyance records of the county in which the land herein leased is situated an instrument identifying and describing the pooled acreage. The entire acreage so pooled into a tract or unit shall be treated, for all purposes except the payment of royalties on production from the pooled unit, as if it were included in this lease. If production is found on the pooled acreage, it shall be treated as if production is had from this lease, whether the well or wells be located on the premises covered by this lease or not. In lieu of the royalties elsewhere herein specified, lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.

Lessee agrees to comply with all reasonable rules and regulations imposed by Lessor with regard to opening, closing and locking all gates to prevent loss or damage to Lessor's property.

It is agreed by the Lessor and Lessee that in paragraph #3 and #4 where the word "one-eighth" (1/8) appears, it should read fifteen percent (15%) in each case.

This lease shall supersede and replace that certain Oil and Gas Lease dated August 16, 2012, by and between Ford County, Lessor, and Ritchie Exploration, Inc., Lessee, recorded in Book 59 at Pages 698-700.

IN WITNESS WHEREOF, the undersigned execute this instrument as of the day and year first above written.

Re: Drilling Pit Application
Ford Yard-KSR 1
NW/4 Sec.12-27S-24W
Ford County, Kansas

Dear Justin Clegg:

District staff has inspected the above referenced location and has determined that an unsealed condition will present a pollution threat to water resources.

District staff has recommended that the reserve pit be lined with bentonite or native clay, constructed **without slots**, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again after drilling operations have ceased.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8888 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the District Office at (620) 225-8888.
