IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

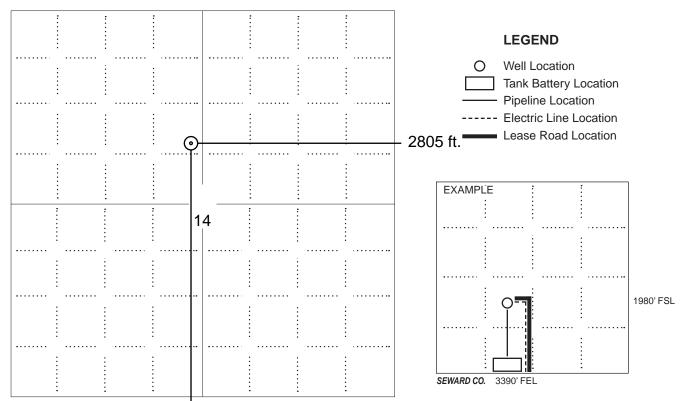

In all cases, please fully complete this side of the form. Include items 1 through 5 at the bottom of this page.

Operator:	Location of Well: County:
Lease:	feet from N / S Line of Section
Well Number:	feet from E / W Line of Section
Field:	SecTwpS. R 🗌 E 🔲 W
Number of Acres attributable to well:	Is Section: Regular or Irregular
	If Section is Irregular, locate well from nearest corner boundary. Section corner used: NE NW SE SW

PLAT

Show location of the well. Show footage to the nearest lease or unit boundary line. Show the predicted locations of lease roads, tank batteries, pipelines and electrical lines, as required by the Kansas Surface Owner Notice Act (House Bill 2032).

You may attach a separate plat if desired.

NOTE: In all cases locate the spot of the proposed drilling locaton.

3465 ft.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
- 5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

Re: Notice of Intent to Drill API 15-045-22007-00-00 Neumer A-12 NW/4 Sec.14-15S-20E Douglas County, Kansas

Dear Mr. Frick:

Records indicate that two domestic water wells are located less than 660 feet from this proposed location. Eastern Kansas Surface Casing Order #133,891-C for Area 3, paragraph 2 states, "No well shall be drilled closer than 660 feet of an existing domestic or municipal water well without written owner notification, a copy of which must be attached to the drilling intent form during filing. Special casing and cementing requirements may be imposed in those areas producing fresh and usable water."

Please provide us with a copy of the owner notification to further the processing of your notice of intent to drill. Copies of the water well records are attached.

I may be contacted at 316-337-6200 if you need additional information.

RE: Well Drilling by Altavista Energy, Inc.

To Whom It May Concern:

Altavista Energy, Inc. is the current owner of the Neumer Oil Lease, located on your property southeast of Baldwin City, Kansas. In the course of filing the required drilling intent forms with the Kansas Corporation Commission (KCC), it was brought to our attention that there is a domestic water well on your property that will be within 660 feet of several of our proposed well locations. This does not inherently pose any concern from an environmental or contamination standpoint, but we are required in cases such as this to notify the water well owner of our drilling activity. This letter serves as your notification.

If you have any questions or concerns, feel free to contact me and we can discuss. A copy of this letter has been filed with the KCC.

Regards,

Phil Frick Land and Compliance Altavista Energy, Inc. 785-883-4057 dephil@dpeweb.com

<u>AFFIDAVIT</u>

The undersigned, of lawful age, being first duly sworn, upon oath states:

1. Affiant is Lessor, for purposes of this affidavit, named in the following oil and gas lease:

Neumer Lease: Oil & gas lease dated May 15, 2013, by and between Ronald P. Neumer and Brenda L. Neumer, huband and wife, Lessor, and Altavista Energy, Inc., Lessee, covering the following land in Douglas County, Kansas:

A tract of land located in the North half of Section 14, Township 15 South, Range 20 East of the 6th P.M., Douglas County, Kansas, more particularly described as follows: Beginning at the Southwest corner of the East half of the East half of the Northwest Quarter; thence North 0° 17′ 15″ East 1753.22 feet, said point being on the West line of the East half of the East half of the Northwest Quarter; thence South 89° 58′ 28″ East 1228.50 feet; thence North 0° 17′ 15″ East 890.14 feet, said point being on the North line of the West half of the Northeast Quarter; thence continuing along said North line South 89° 59′ 18″ East 361.82 feet; thence South 5° 24′ 13″ West 751.59 feet; thence South 87° 59′ 35″ East 483.79 feet, said point being on the East line of the West half of the Northeast Quarter; thence South 0° 28′ 14″ West 1876.73 feet, said point being the Southeast corner of the West half of the Northeast Quarter; thence South 89° 59′ 21″ West 2000.88 feet to the point of beginning. (See attached Exhibit A for map)

- 2. Lessor agrees that Lessee is currently drilling for oil on the above-described Neumer Lease as of the date of this affidavit.
- 3. Lessee has brought to Lessor's attention that two water well records (see Exhibit B) on the Kansas Geological Survey website show water wells in the exact same location on Lessor's property (location shown on Exhibit A Map), and that these water well records have resulted in several drilling intent forms for the Neumer Lease to be placed on a 15 day hold.
- 4. Upon review of these facts, and subsequent exploration by Lessee, both Lessor and Lessee find the two water well records to be in error as to the location of any known water well on the property, there are no known water wells on the property other than the one drilled by Lessor that is located north of Lessor's house and is more than 660 feet from any proposed drilling location, and Lessor hereby states that they have no interest in disputing the proposed locations of any oil or injection well on the Neumer Lease based on the data in the water well records shown in Exhibit B.

Date: <u>1-26-2013</u>	Ronald P. Neumer	Doleumen
Date: <u>7-26-30/3</u>	Sunda Al d Brenda L. Neumer	Lessor

STATE OF KANSAS)
