“Lessee, at its option, is hereby given the right and power to pool or combine into one or more units the land covered by this lease, or any portion thereof, with other land covered by another lease, or leases when, in lessee’s judgment, it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of such minerals in and under said land, such pooling to be in a unit or units not exceeding 80 acres each in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas and/or condensate or distillate well, plus a tolerance of ten percent (10%) to conform to Governmental Survey quarter sections. Lessee shall execute in writing and file for record in the county in which the land is situated an instrument identifying and describing the pooled acreage. In lieu of the royalties elsewhere herein specified lessor shall receive on production from the unit so pooled only such portion of the royalty stipulated herein as the amount of his net royalty interest therein on an acreage basis bears to the total mineral acreage so pooled in the particular unit involved.”;

WHEREAS, Paragraph 14 of the above-described oil and gas lease from Ross and Sherry Koehn Trust, U/A dated 1-27-10 provides as follows:

“Lessee, at its option, is hereby given the right and power to pool or combine into one or more units the land covered by this lease, or any portion thereof, with other land covered by another lease, or leases when, in lessee’s judgment, it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of such minerals in and under said land, such pooling to be in a unit or units not exceeding 40 acres each in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas and/or condensate or distillate well, plus a tolerance of ten percent (10%) to conform to Governmental Survey quarter sections. Lessee shall execute in writing and file for record in the county in which the land is situated an instrument identifying and describing the pooled acreage. The entire acreage so pooled into a unit or units shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if it were included in this lease. If production is found on any part of the pooled acreage it shall be treated as if production is had from this lease whether any well is located on the land covered by this lease or not. Any well drilled on any such unit shall be and constitute a well hereunder. In lieu of the royalties elsewhere herein specified lessor shall receive on production from the unit so pooled only such portion of the royalty stipulated herein as the amount of his net royalty interest therein on an acreage basis bears to the total mineral acreage so pooled in the particular unit involved.”;

WHEREAS, Lessee and Youle have determined in their judgment that it is necessary, advisable and advantageous to pool, unitize and consolidate the oil rights in and under a portion of the acreage and lands covered by the Subject Leases to promote conservation of oil, gas and other minerals in and under and that may be produced from said premises, to properly develop and operate the land and interests being pooled as one oil operating unit, upon the terms and conditions hereinafter provided, and as provided in the Subject Leases;

WHEREAS, the Subject Leases, and the portions thereof to be pooled, unitized, combined and consolidated, are in the immediate vicinity of each other and are contiguous to one another as to form a compact unit, and the unit being formed hereunder does not exceed 40 acres for oil;

WHEREAS, at the present time there is no governmental regulation or order prescribing a spacing pattern for the development of a field wherein the pooled lands or a portion thereof, are located;

WHEREAS, the pooling hereunder shall be effective the 21<sup>st</sup> day of October, 2013; and

WHEREAS, Lessee and Youle do now desire to declare their purpose to pool, unitize, combine and consolidate the oil rights only, to the extent set out herein, in and to certain lands covered by the Subject Leases into a single oil unit, as hereinafter described.

NOW THEREFORE, in consideration of the premises, the execution of this Declaration and the mutual covenants herein to be performed, and other good and

valuable consideration, Lessee and Youle, pursuant to the above and foregoing recitals and the terms and conditions of the Subject Leases, do hereby execute this Declaration of Unitization and do hereby create and form an oil unit of said leases and land, including Lessors' royalty interest, as to oil rights only, insofar and only insofar as said leases and land included within the pool and oil unit described as follows, to wit:

Township 27 South, Range 30 West

Section 24: SE/4SE/4NE/4 and NE/4NE/4SE/4

containing 40 acres, more or less,

to the same extent as if said oil leasehold estates had originally been included in one Oil and Gas Lease, which pooled, unitized and consolidated area shall include within the same all lands covered by the Subject Leases insofar and only insofar as the same are included within the above described oil unit.

THIS Declaration and the terms and conditions hereof shall extend to and be binding upon all persons having any right, title or interests of any kind or character in and to the Subject Leases, including Lessors' rights thereunder, their respective heirs, successors and assigns.

Re: Drilling Pit Application  
RPM Farms 1-19  
NW/4 Sec.19-27S-29W  
Gray County, Kansas

Dear David E. Rice:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed **without slots**, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again within 96 hours after drilling operations have ceased.

**If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.**

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8888 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

**A copy of this letter should be posted in the doghouse along with the approved Intent to Drill.** If you have any questions or concerns please feel free to contact the District Office at (620) 225-8888.
