SAMPLE DESCRIPTIONS

Mississippi 2554' (-1123)
2559' - 2587'

Chert - amber, off white, gray, blue, opaque to translucent, mostly fresh
faint odor, trace light stain, very slight show free oil few gas bubbles, t
weathered with pin point porosity and fluorescence.

CONCLUSIONS

Because of the lack of shows in the Mississippi the decision was made to plug this hole
dry and abandon.
