6. Contact landowner for best access.

\* Controlling data is based upon the best mass and photography available to us and upon a regular section of land containing 640 acres.  
 \* Accuracies shown are the minimums into the normal process of use of digital surveys.  
 \* No warranty is made for any use other than that for which the data was collected. The user is not necessarily located, and the exact location of the drillsite location in the section is not guaranteed. Therefore, the user is advised to verify the location of the drillsite and all other data points on the ground before any excavation or other work is done.  
 \* Elevations derived from National Geographic Vertical Datum.
