\* Controlling data is based upon the best maps and photographs available to us and upon a regular section of land containing 360 acres.  
 Approximate section lines were determined using the latest standards of care of official surveyors practicing in the state of Kansas, the section corners, which determine the precise section lines, were not independently located, and the exact location of the well is not guaranteed. Therefore, the operator accepting this service and accepting this plat and all other parties relying thereon agree to hold Central Kansas Oilfield Services, Inc., its officers and employees harmless from all losses, costs and expenses and shall not be released from any liability from the center of each section.
