#### IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

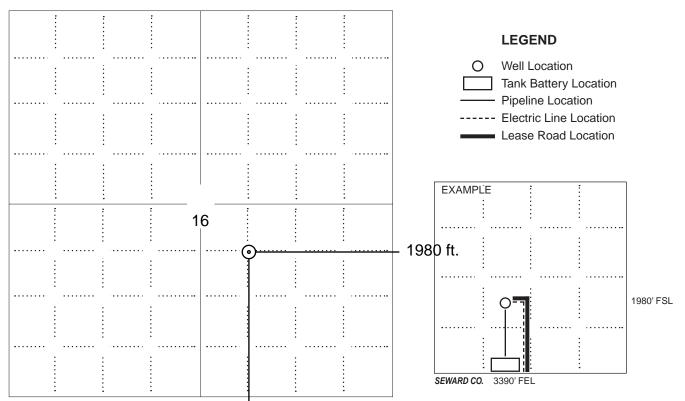

In all cases, please fully complete this side of the form. Include items 1 through 5 at the bottom of this page.

Operator:	Location of Well: County:
Lease:	feet from N / S Line of Section
Well Number:	feet from E / W Line of Section
Field:	SecTwpS. R 🗌 E 🔲 W
Number of Acres attributable to well:	Is Section: Regular or Irregular
	If Section is Irregular, locate well from nearest corner boundary.  Section corner used: NE NW SE SW

#### **PLAT**

Show location of the well. Show footage to the nearest lease or unit boundary line. Show the predicted locations of lease roads, tank batteries, pipelines and electrical lines, as required by the Kansas Surface Owner Notice Act (House Bill 2032).

You may attach a separate plat if desired.

NOTE: In all cases locate the spot of the proposed drilling locaton.

#### 1980 ft.

### In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
- 5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

Re: Benrud 16-1

16-26S-7E Butler Co., KS

Mr. Hesterman,

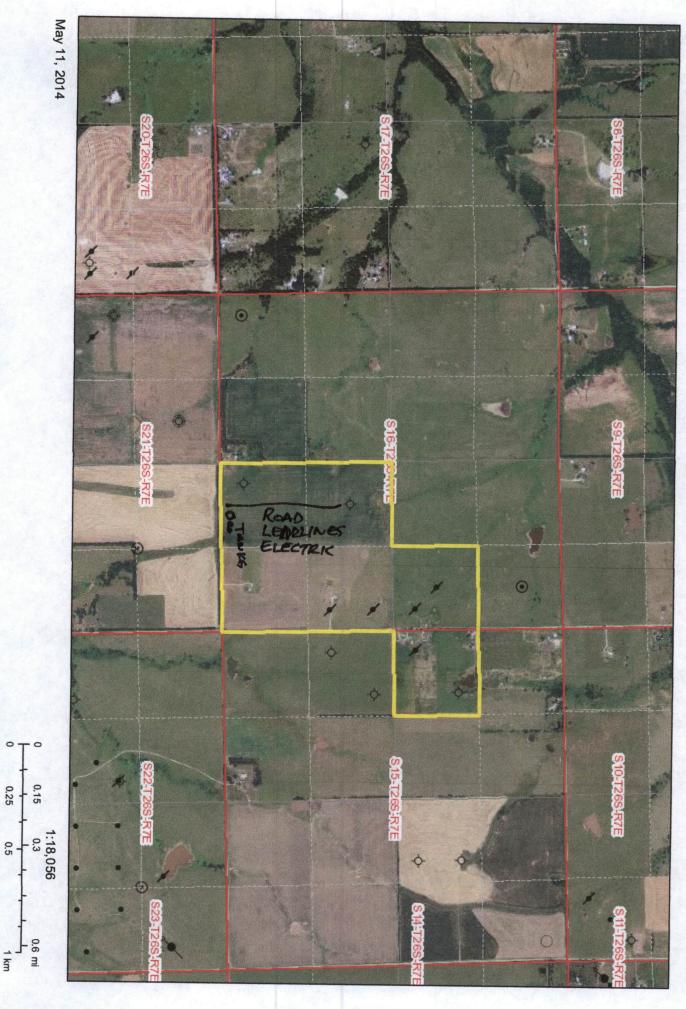

This well is an OWWO and has 153' of 8-5/8" surface casing set. I am requesting an exception to Table I surface casing requirement of 200 feet for this area.

Please process or contact me with any questions or concerns.

Respectfully,

Troy A. Phillips President

RE: Surface Casing Exception

Benrud 16-1, NW-SE Sec. 16-T26S-R7E, Butler County, Kansas

Dear Mr. Phillips:

The Kansas Corporation Commission (KCC) has received your request, dated May 11, 2014, for an exception to the Table 1 minimum surface pipe requirement of 200 feet for the proposed re-entry and washdown of this well. From your request, the KCC understands that Phillips Oil Properties, Inc. is requesting to utilize the existing 153 feet of surface casing in this well bore and Alternate II cementing rules.

After review of this matter by technical staff it was determined that:

- 1. Bedrock at this location is the Permian Chase Group (Barneston Fm?) and is located at or near surface.
- The depth of the deepest water well of record within one mile of the proposed location is 200 feet.

Based on this information, an exception is granted for the Table 1 Minimum Surface Casing Requirements with the following stipulations:

- Upon completion of the well, the production or long string casing nearest the
  formation wall shall be immediately cemented from a depth of at least 250 feet
  back to the surface. Notify the KCC District #2 office prior to spudding the well
  and one day before cementing the longstring so they may have the opportunity to
  witness the procedure.
- Upon final abandonment of the well plugging will be performed according to KCC rules and KCC District #2 requirements.

Sincerely,

Ryán A. Hoffman

Director

Re: Drilling Pit Application Benrud 16-1 SE/4 Sec.16-26S-07E Butler County, Kansas

## Dear Troy Phillips:

District staff has inspected the above referenced location and has determined that an unsealed condition will present a pollution threat to water resources.

District staff has recommended that the reserve pit be lined with bentonite or native clay, constructed <u>without slots</u>, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit after drilling operations have ceased.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (316) 630-4000 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to **Drill**. If you have any questions or concerns please feel free to contact the District Office at (316) 630-4000.
