• Contouring data is based upon the best maps and photographs available to us and upon a regular survey of land containing all the data.
 • Elevation and surface lines were determined using the normal standard of care of oilfield surveyors practicing in the State of Kansas. The section corners which establish the precise section lines were not measured by staking and the exact location of the drillsite location in the section is not guaranteed. Therefore, the user, by using this service and accepting this plan and all other data, hereby releases and agrees to hold Central Kansas Oilfield Services, Inc., its officers and employees harmless from all claims, costs and expenses and said parties released from any liability for negligence or consequential damages.
 • Elevation is from National Geodetic Vertical Datum.
