Comments:

After an audit of LINN's approved Intent to Drill and special provisions (if applicable), it was determined an oversight was made to remove fluids from the drilling pit as specified in the approved drilling pit application. Normal protocol was followed. The pit was closed on 8/14/2014. It was closed within 6 months of spud date. Measures have since been put in place to ensure these type incidents won't reoccur. We apologize for any inconvenience this may have caused. Thanks.
