	AFFIDAVIT
The undersigned hereby affirms that the drilling, completion and ever	entual plugging of this well will comply with K.S.A. 55 et. seq.
It is agreed that the following minimum requirements will be met:	
1. Notify the appropriate district office <i>prior</i> to spudding of well;	
	l on each drilling rig:
2. A copy of the approved notice of intent to drill shall be posted	I on each drilling rig;  If be set by circulating cement to the top; in all cases surface pipe shall be set
2. A copy of the approved notice of intent to drill shall be posted	If be set by circulating cement to the top; in all cases surface pipe shall be set
<ol> <li>A copy of the approved notice of intent to drill shall be posted</li> <li>The minimum amount of surface pipe as specified below sha through all unconsolidated materials plus a minimum of 20 fe</li> <li>If the well is dry hole, an agreement between the operator an</li> </ol>	If be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation.  If the district office on plug length and placement is necessary prior to plugging;
<ol> <li>A copy of the approved notice of intent to drill shall be posted</li> <li>The minimum amount of surface pipe as specified below sha through all unconsolidated materials plus a minimum of 20 fe</li> <li>If the well is dry hole, an agreement between the operator an</li> <li>The appropriate district office will be notified before well is eit</li> </ol>	If be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation. If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in;
<ol> <li>A copy of the approved notice of intent to drill shall be posted</li> <li>The minimum amount of surface pipe as specified below sha through all unconsolidated materials plus a minimum of 20 fe</li> <li>If the well is dry hole, an agreement between the operator an</li> <li>The appropriate district office will be notified before well is eit</li> <li>If an ALTERNATE II COMPLETION, production pipe shall be</li> </ol>	If be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation.  If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; cemented from below any usable water to surface within 120 DAYS of spud date.
<ol> <li>A copy of the approved notice of intent to drill shall be posted</li> <li>The minimum amount of surface pipe as specified below sha through all unconsolidated materials plus a minimum of 20 fe</li> <li>If the well is dry hole, an agreement between the operator an</li> <li>The appropriate district office will be notified before well is eit</li> <li>If an ALTERNATE II COMPLETION, production pipe shall be Or pursuant to Appendix "B" - Eastern Kansas surface casing</li> </ol>	If be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation.  If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; cemented from below any usable water to surface within 120 DAYS of spud date.  If order #133,891-C, which applies to the KCC District 3 area, alternate II cementing
<ol> <li>A copy of the approved notice of intent to drill shall be posted</li> <li>The minimum amount of surface pipe as specified below sha through all unconsolidated materials plus a minimum of 20 fe</li> <li>If the well is dry hole, an agreement between the operator an</li> <li>The appropriate district office will be notified before well is eit</li> <li>If an ALTERNATE II COMPLETION, production pipe shall be Or pursuant to Appendix "B" - Eastern Kansas surface casing</li> </ol>	If be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation.  If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; cemented from below any usable water to surface within 120 DAYS of spud date.
<ol> <li>A copy of the approved notice of intent to drill shall be posted</li> <li>The minimum amount of surface pipe as specified below sha through all unconsolidated materials plus a minimum of 20 fe</li> <li>If the well is dry hole, an agreement between the operator an</li> <li>The appropriate district office will be notified before well is eit</li> <li>If an ALTERNATE II COMPLETION, production pipe shall be Or pursuant to Appendix "B" - Eastern Kansas surface casing</li> </ol>	If be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation. #### IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

In all cases, please fully complete this side of the form. Include items 1 through 5 at the bottom of this page.

Operator:	Location of Well: County:
Lease:	feet from N / S Line of Section
Well Number:	feet from E / W Line of Section
Field:	Sec Twp S. R
Number of Acres attributable to well:	Is Section: Regular or Irregular
	If Section is Irregular, locate well from nearest corner boundary.  Section corner used: NE NW SE SW

#### **PLAT**

Show location of the well. Show footage to the nearest lease or unit boundary line. Show the predicted locations of lease roads, tank batteries, pipelines and electrical lines, as required by the Kansas Surface Owner Notice Act (House Bill 2032).

You may attach a separate plat if desired.

NOTE: In all cases locate the spot of the proposed drilling locaton.

#### 1815 ft.

#### In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
- 5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

Re: Drilling Pit Application Hays KR-18 SW/4 Sec.13-18S-21E Miami County, Kansas

#### Dear Brad Kramer:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed **without slots**, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as practical after drilling operations have ceased.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 432-2300 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to **Drill**. If you have any questions or concerns please feel free to contact the District Office at (620) 432-2300.
