Re: SNS 4-7 Alternate II Request 15-145-21799

Rick Hestermann

I was unaware that Pawnee County was Alternate I only and made my application for an Intent to Drill as Alternate II. I did not realize that the approved intent had been changed to Alternate I.

Discovery Drilling Rig #3 moved in and spudded yesterday and followed my instructions and what is our normal procedure and set surface pipe for Alternate II requirements at 221'. Galen Gaschler, tool pusher for the rig called me after they had set the surface pipe and told me the Intent was for Alternate I.

It was not my intention to not follow the requirement of Alternate I and I should have checked the Intent.

Please consider this attachment as my request for an exception to the Alternate I requirement and allow an Alternate II on this well.

Scott Corsair, P.E.

RE: Surface Casing Exception SNS 4-7, SE-SE-SW-NW Sec.7-T20S-R20W Pawnee County, Kansas

Dear Mr. Corsair:

The Kansas Corporation Commission (KCC) has received your request, dated March 24, 2015, for an exception to the Table 1 minimum surface pipe requirement of 460 feet. From your request, the KCC understands that American Warrior, Inc is requesting to utilize the existing 221 feet of surface casing in this well bore and Alternate II cementing rules.

After review of this matter by technical staff it was determined that:

- 1. Bedrock at this location is the Carlile Shale and is located at or near surface.
- 2. The nearest water well of record within one mile of the proposed location is 37 feet deep.

Based on this information, a one-time exception is granted for the Table 1 Minimum Surface Casing Requirements with the following stipulations:

- 1. Upon completion of the well, the production or long string casing nearest the formation wall shall be immediately cemented from a depth of at least 460 feet back to ground surface (top of the surface pipe).
- 2. The KCC District #1 office must be notified prior to spudding the well and one day before cementing the longstring so they may have the opportunity to witness the procedure.
- 3. In the event the well is dry, plugging will be performed according to KCC rules and KCC District #1 requirements.

Sincerely,

Ryan A. Hoffman

Director
