### Recommendation

The referenced well is recommended for plugging and abandonment.

### Discussion

The Morrow A 2-6 was drilled and completed by Dome Petroleum in February 1995 to a total depth of 5,521'. Initially, the Mississippi Lime was. Chesapeake acquired the well from OneOk in 2003.

The well has produced a cumulative 57.9 MMCF and has no remaining reserves (3Q15). Geology has determined no uphole potential and the well has been temporarily abandoned. The lease has expired and Chesapeake has plugging liability.

The gross estimate AFE cost to P&A the well is \$42M (\$42M net to COI). Partner approval will not be necessary to commence operations.

Your approval is respectfully requested.

Dear Katie Wright:

The Conservation Division has received your Well Plugging Application (CP-1).

**Under K.A.R. 82-3-113(b)(2), you must notify DISTRICT 1 of your proposed plugging plan at least 5 days before plugging the well.** DISTRICT 1's phone number is (620) 225-8888. Failure to notify DISTRICT 1, or failure to file a Well Plugging Record (CP-4) after the well is plugged will result in a penalty recommendation.

**Under K.A.R. 82-3-600, you must file an Application for Surface Pit (CDP-1) if you wish to use a workover pit while plugging the well.** Failure to timely file a CDP-1, failure to timely remove fluids, or failure to timely file Closure of Surface Pit (CDP-4) or Waste Transfer (CDP-5) forms will result in a penalty recommendation.

This receipt does NOT constitute authorization to plug this well if you do not otherwise have the legal right to do so.

This receipt is VOID after January 23, 2016. If the well is not plugged by then, you will have to submit a new CP-1 if you wish to plug the well.

**The January 23, 2016 deadline does NOT override any compliance deadline given to you by Legal, District, or other Commission Staff.** Failure to comply with any given deadline will still result in the Commission assessing penalties, or taking other legal action.

Sincerely,  
Production Department Supervisor
