**Subject:** RE: Temporary Abandoned Wells

Jens, you are basically correct. K.A.R. 82-3-111 requires that a well not physically produced or actually used for injection within the last 90 days either be approved for temporary abandonment (TA) or plugged. TA is the commission's administrative process for keeping track of wells that are not currently producing and to insure that these wells do not pose a risk to the environment. The TA process is between the operator and the KCC and does not affect any lease terms that allow the operator to hold its lease by paying shut in royalties on a well that has been TAed. Shut in gas wells are required to be TAed even if shut in royalties are being paid to hold the lease.

**Subject:** Temporary Abandoned Wells

Kansas Corporation Commission  
Mr. John McCannon

Dear Sir:

We spoke this morning about a demand letter received from the KCC Division #3 regarding a demand that Domestic Energy Partners temporarily abandon certain wells that fit the KCC criteria promulgated under Section 82-3-111 of the General Rules and Regulations For the Conservation of Crude Oil and Natural Gas of The State Corporation Commission Of The State Of Kansas. You informed me that a Temporary Well Abandonment Application is not considered a declaration that an operator has in any way or manner legally or physically abandoned the well. Rather, the temporary abandonment of a well under said Section 82-3-111 only concerns the suspending of all administrative activity between the KCC and operator until the well is either reactivated or plugged and abandoned. As such, temporarily abandoning a well under Section 82-3-111 has no effect on legal contracts and obligations such as the shut-in royalty provision under the oil and gas lease. Please confirm by return email that the abandonment of a well as required by said Section 82-3-111 is an administrative issue specifically restricted by and between the KCC and the well operator. Accordingly, when the operator submits an Application for Temporary Abandonment Authority, the KCC acknowledges that operator is not creating a third party notice of operator's intent regarding a well bore. Your written reply will be greatly appreciated.

Thanks you,  
Jens Hansen  
Domestic Energy Partners

Wilson County, Kansas

Dear TRACY MILLER:

"Your temporary abandonment (TA) application for the well listed above has been approved. In accordance with K.A.R. 82-3-111 the TA status of this well will expire 09/30/2017.

- \* If you return this well to service or plug it, please notify the District Office.
- \* If you sell this well you are required to file a Transfer of Operator form, T-1.
- \* If the well will remain temporarily abandoned, you must submit a new TA application, CP-111, before 09/30/2017.

You may contact me at the number above if you have questions.

Very truly yours,

Alan Dunning"
