* Controlling data is based upon the best maps and photographs available to us and upon a regular section of land containing 840 acres.

* Approximate section lines were determined using the normal standards of care of a field surveyor practicing in the state of Kansas. The section corners, which establish the precise section lines, were not necessarily located, and the exact location of the drillsite location on the section is not guaranteed. Therefore, the operator securing this service and accepting this plot and all other plots relies on the accuracy of field control, Kansas Oilfield Services, Inc. and its officers and employees, and the operator, to survey, locate and establish the location of the drillsite. The operator and its employees shall not be liable for any consequential damages.

* Elevations derived from National Geodetic Vertical Datum
