YOUNGER "B" #4

MIT ON CASING

Presently- Well is TA'd with "G" Zone open from 3493' to 3503'

11-09-18 Moved in Express Well Service Double Drum and Rigged up. Ran 4 ½" Model R Packer in Set Down Position on 2 7/8" Upset Tubing. We ran 109 joints- 3405.50' of Tubing. Packer has to be within 50' of perforations so I had to run back to Victoria to pick up some Tubing Subs to get within 50' of the perforations. We ran 34' of Subs with 5.50' from top of Packer to Center of Rubber for a total of 3445'. Tired to set the Packer and it would not set. We ran another 2-4' Subs and finally got it to set with one of the subs out of the hole. Packer is set at 3449'. Hooked to backside and pumped 21 Bbl. Of water down the hole. The temperature out was about 28 degrees and the water was cold. It loaded and we pressured up to 300# to 350# several times and the pressure would slowly drop off. After about 45 minutes we took it to 330# and after 15 minutes the pressure was at 350#. Temperature change was working and the casing is in good shape. Pat Staab with the KCC was on location to witness the test. He confirmed that the test was good. I signed the test. We released the Packer and pulled Tubing and Packer. Tore down and moved off. I had a valve in my pickup which I gave to D-Oil and we put on top of the $4\frac{1}{2}$ " to 2" Swedge so that the well will be closed in.

I have filed for TA'd status for this well. According to Rich Williams with the KCC this should be good for 3 years with fluid levels shot each year. This well has been TA'd for 10 years presently.

Re: Temporary Abandonment API 15-051-02730-00-00 YOUNGER B 4 NW/4 Sec.20-13S-17W Ellis County, Kansas

Dear Terry Piesker:

Your temporary abandonment (TA) application for the well listed above has been approved. In accordance with K.A.R. 82-3-111 the TA status of this well will expire 05/20/2020.

Your exception application expires on 05/14/2022.

- * If you return this well to service or plug it, please notify the District Office.
- * If you sell this well you are required to file a Transfer of Operator form, T-1.
- * If the well will remain temporarily abandoned, you must submit a new TA application, CP-111, before 05/20/2020.

You may contact me at the number above if you have questions.

Very truly yours,

RICHARD WILLIAMS
