SCALE 1" = 1000'

• Controlling data is based upon the best maps and photographs available to us and upon a regular section of land containing 500 acres.

• Approximate section lines were determined using the corner standard of care of a field surveyor practicing in the state of Kansas. The section corners, which establish the precise section lines, were not measured, located, or the exact location of the drillsite location in the section is not guaranteed. Therefore, the operator shall be fully service and accepting this plot and all other parties relying thereon agree to hold Central Kansas Oilfield Services, Inc., its officers and employees harmless from all claims, costs and expenses and hold entire as released from any liability from incidents or consequences of damages.

• Elevations derived from National Geodetic Vertical Datum.
