AFFIDAVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et. seq.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office **prior** to spudding of well;
2. A copy of the approved notice of intent to drill **shall be** posted on each drilling rig;
3. The minimum amount of surface pipe as specified below **shall be set** by circulating cement to the top; in all cases surface pipe **shall be set** through all unconsolidated materials plus a minimum of 20 feet into the underlying formation.
4. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary **prior to plugging**;
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in;
6. If an ALTERNATE II COMPLETION, production pipe shall be cemented from below any usable water to surface within **120 DAYS** of spud date. Or pursuant to Appendix "B" - Eastern Kansas surface casing order #133,891-C, which applies to the KCC District 3 area, alternate II cementing must be completed within 30 days of the spud date or the well shall be plugged. **In all cases, NOTIFY district office** prior to any cementing.

Well Location:
____ - ____ - ____ - ____ Sec. ____ Twp. ____ S. R. ____ East West
County: _____
Lease Name: _____ Well #: _____
If filing a Form T-1 for multiple wells on a lease, enter the legal description of the lease below:

Surface Owner Information:

Name: _____
Address 1: _____
Address 2: _____
City: _____ State: _____ Zip: _____ + _____

When filing a Form T-1 involving multiple surface owners, attach an additional sheet listing all of the information to the left for each surface owner. Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

Select one of the following:

- I certify that, pursuant to the Kansas Surface Owner Notice Act (House Bill 2032), I have provided the following to the surface owner(s) of the land upon which the subject well is or will be located: 1) a copy of the Form C-1, Form CB-1, Form T-1, or Form CP-1 that I am filing in connection with this form; 2) if the form being filed is a Form C-1 or Form CB-1, the plat(s) required by this form; and 3) my operator name, address, phone number, fax, and email address.
- I have not provided this information to the surface owner(s). I acknowledge that, because I have not provided this information, the KCC will be required to send this information to the surface owner(s). To mitigate the additional cost of the KCC performing this task, I acknowledge that I must provide the name and address of the surface owner by filling out the top section of this form and that I am being charged a \$30.00 handling fee, payable to the KCC, which is enclosed with this form.

If choosing the second option, submit payment of the \$30.00 handling fee with this form. If the fee is not received with this form, the KSONA-1 form and the associated Form C-1, Form CB-1, Form T-1, or Form CP-1 will be returned.

OIL AND GAS LEASE

63U (Rev. 1993)

AGREEMENT, Made and entered into the 16th day of April 2017
 by and between, David G. Mai and Linda J. Mai, husband and wife
PO Box 386, Sharon Springs, KS 67758

whose mailing address is _____, hereinafter called Lessor (whether one or more),
 and, Red Oak Energy, Inc. 7701 E. Kellogg, Ste. 710, Wichita, KS 67207, hereinafter called Lessee:

Lessor, in consideration of ten and more Dollars (\$ 10.00+) in hand paid, receipt of which is here acknowledged and of the royalties herein provided and of the agreements of the lessee herein contained, hereby grants, leases and lets exclusively unto lessee for the purpose of investigating, exploring by geophysical and other means, prospecting, drilling, mining and operating for and producing oil, liquid hydrocarbons, all gases, and their respective constituent products, injecting gas, water, other fluids, and air into subsurface strata, laying pipe lines, storing oil, building tanks, power stations, telephone lines, and other structures and things thereon to produce, save, take care of, treat, manufacture, process, store and transport said oil, liquid hydrocarbons, gases and their respective constituent products and other products manufactured therefrom, and housing and otherwise caring for its employees, the following described land, together with any reversionary rights and after-acquired interest,

therein situated in the County of Wallace, State of Kansas,

Township 14 South, Range 41 West
 Section 26: All

In Section 26 Township 14S Range 41W and containing 640 acres, more or less, and all accretions thereto.

Subject to the provisions herein contained, this lease shall remain in force for a term of one (1) years from this date (called "primary term"), and as long thereafter as oil, liquid hydrocarbons, gas or other respective constituent products, or any of them, is produced from said land or land with which said land is pooled.

In consideration of the premises the said lessee covenants and agrees:

1st. To deliver to the credit of lessor, free of cost, in the pipe line to which lessee may connect wells on said land, the equal one-eighth (1/8) part of all oil produced and saved from the leased premises.

2nd. To pay lessor for gas of whatsoever nature or kind produced and sold, or used off the premises, or used in the manufacture of any products therefrom, one-eighth (1/8), at the market price at the well, (but, as to gas sold by lessee, in no event more than one-eighth (1/8) of the proceeds received by lessee from such sales), for the gas sold, used off the premises, or in the manufacture of products therefrom, said payments to be made monthly. Where gas from a well producing gas only is not sold or used, lessee may pay or tender as royalty One Dollar (\$1.00) per year per net mineral acre retained hereunder, and if such payment or tender is made it will be considered that gas is being produced within the meaning of the preceding paragraph.

This lease may be maintained during the primary term hereof without further payment or drilling operations. If the lessee shall commence to drill a well within the term of this lease or any extension thereof, the lessee shall have the right to drill such well to completion with reasonable diligence and dispatch, and if oil or gas, or either of them, be found in paying quantities, this lease shall continue and be in force with like effect as if such well had been completed within the term of years first mentioned.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided for shall be paid the said lessor only in the proportion which lessor's interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for lessee's operations thereon, except water from the wells of lessor.

When requested by lessor, lessee shall bury lessee's pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now on said premises without written consent of lessor.

Lessee shall pay for damages caused by lessee's operations to growing crops on said land.

Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties shall be binding on the lessee until after the lessee has been furnished with a written transfer or assignment or a true copy thereof. In case lessee assigns this lease, in whole or in part, lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

Lessee may at any time execute and deliver to lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered.

All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this lease shall not be terminated, in whole or in part, nor lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or if such failure is the result of, any such Law, Order, Rule or Regulation.

Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the lessee shall have the right at any time to redeem for lessor, by payment, any mortgage, taxes or other liens on the above described lands, in the event of default of payment by the lessor, and be subrogated to the rights of the holder thereof, and the undersigned lessors, for themselves and their heirs, successors and assigns, hereby surrender and release all right of dower and homestead in the premises described herein, in so far as said right of dower and homestead may in any way affect the purposes for which this lease is made, as recited herein.

Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof with other land, lease or leases in the immediate vicinity thereof, when in lessee's judgment it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises, such pooling to be of tracts contiguous to one another and to be into a unit or units not exceeding 40 acres each in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas well. Lessee shall execute in writing and record in the conveyance records of the county in which the land herein leased is situated an instrument identifying and describing the pooled acreage. The entire acreage so pooled into a tract or unit shall be treated, for all purposes except the payment of royalties on production from the pooled unit, as if it were included in this lease. If production is found on the pooled acreage, it shall be treated as if production is had from this lease, whether the well or wells be located on the premises covered by this lease or not. In lieu of the royalties elsewhere herein specified, lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.

IN WITNESS WHEREOF, the undersigned execute this instrument as of the day and year first above written.

ADDENDUM

Attached to and made a part of Oil and Gas Lease dated April 16, 2017, by David G. Mai and Linda J. Mai, husband and wife, as Lessor(s), to Red Oak Energy, Inc., Lessee.

Notwithstanding any provisions in the printed portion of this oil and gas lease to the contrary, the following provisions shall apply to said lease.

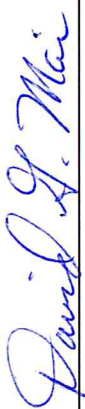

1. All reference in the lease to housing and otherwise caring for the employees of the Lessee shall be stricken.
2. Lessor reserves all rights to grant, lease, mine and/or produce any minerals from said lands except interests in gas and oil and their constituent products herein leased to Lessee.
3. Lessee shall bury pipelines and utility lines "a minimum of 36" deep". Lessee shall pay Lessor for reasonable damages to all property, real, personal or mixed, caused by its operations on said land, including but specifically not limited to land, growing crops, grass, buildings, livestock, surface, fences and other improvements and personal property. All slush pits shall be filled and leveled within sixty (60) days after well completion or abandonment unless a longer time therefore is granted by Lessor, at its option.

Lessee further agrees to pay to Lessor a reasonable amount, but not less than \$1,500.00, for each drill site location on the leased premises. As further consideration hereunder, Lessee agrees to pay to Lessor a minimum of \$3.00 per rod, plus crop damages, for any pipeline installed or constructed on the above land, whether or not connecting to the well on the leased premises.
3. All damages payable under this Paragraph 3 and 4 shall be due and payable on or before three (3) months after such damages occur.
4. In the event Lessee should cause a well to be drilled on this lease during the growing season of whatever crop is planted, and should Lessee's or its agent's equipment prohibit farming or harvesting on this land during the term the Well is being drilled, Lessee agrees to pay Lessor and their Tenant, if any, the difference in the value of the crop produced on that portion of the land that was disturbed as compared with the field average for the balance of the field. The field average for that portion which was not disturbed shall be used as the producing capability of the land, and the price per unit shall be the cash price at the local elevator in the town nearest the leased property as of the first day of the normally accepted harvest month.
5. It is the intention of the parties hereto to cause as little interference with farming operations on said land as possible.
6. Prior to the construction of any roads, pipelines, tank battery installations, or installation of other equipment on the leased premises, Lessee shall consult and agree with the surface owner and tenant as to the location and direction of same. There shall be no oil road surfaces or hard surfacing of any access roads without the written consent of Lessor.
7. In the event that oil and/or gas is discovered and produced from this land, Lessee agrees to locate any production facilities associated with the well in such a manner as to cause the least interference to Lessor's farming operations.
8. The use of water provided for under this lease is limited to use for drilling operations on the leased premises only. Lessee shall specifically not have any right to use fresh water from the above described premises for the purpose of water flooding or injection in any water flooding program in which the leased premises may, for any reason, be pooled or unitized, without the consent of the Lessor.
9. The installation of any salt water disposal equipment by Lessee in the operation of the lease shall be subject to the written approval of Lessor. Lessee shall not be permitted to use any well drilled on the leased premises as a salt water disposal well without the written consent of Lessor and without compensating Lessor for the use thereof. Provided, however, the terms of this paragraph do not apply to the disposal of salt water produced from wells located on the leased premises.
10. Subject to Lessee's obligations under Paragraph 3 above, in the event there is no production in paying quantities found by any operations undertaken by Lessee during the primary term of the lease and there is an abandonment of said lease, the Lessee shall fill all pits, ponds, remove all structures and reasonably restore the premises to the condition existing at the time the lease was executed. Within six (6) months after the expiration of the lease by its term, Lessee shall have the obligation to restore, as nearly as practicable, the leased premises to the same condition as received, natural wear and tear and damages by the elements excepted.
11. In the event of production, Lessee shall pay Lessor a minimum guaranteed royalty which will be in a sum not less than \$10.00 per acre per year.
12. It is expressly agreed, notwithstanding anything to the contrary herein, that if the lease be in force and effect three years beyond the primary term thereupon it shall terminate as to the oil and gas rights in all zones and formations of the leased premises or land unitized therewith which are 100' or more below the deepest zone penetrated by Lessee or its horizontal equivalent. Lessee shall be obligated to file of record in

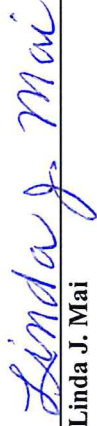

the county courthouse in which the leased premises are located a release of the lease below such zones or formations within sixty (60) days following written demand thereof, with said demand being made after the three (3) year period herein referred to above. If such release is not filed within sixty (60) days following written demand, Lessee shall be liable for damages and attorney's fees, if any, incurred by Lessor in obtaining such release.

13. It is expressly agreed, notwithstanding anything to the contrary herein, that if the lease be in force and effect three years beyond the primary term thereupon it shall terminate as to the oil and gas rights in all portions of the leased premises which are not included in an eighty (80) acre area for each producing oil well. The Lessee shall file of record in the county courthouse in which the leased premises are located a release of the lease beyond said eighty (80) acre area within sixty (60) days following written demand thereof, with said demand being made after the three (3) year period herein referred to above in paragraph 12. If such release is not filed within sixty (60) days following written demand, Lessee shall be liable for damages and attorney's fees, if any, incurred by Lessor in obtaining such release. In the event that the lease is being held by a gas well only, then, in that event, the gas rights shall hold the lease for gas purposes only, but the oil rights shall terminate and shall be released in all portions of the leased premises. In the event that the gas well holding the lease is not situated upon the leased property (held by pooling privileges), then the gas rights in that portion of the leased property not contained within the pooled area shall also be released.
14. Whenever necessary in this lease and Addendum and where the context requires, the singular term and the related pronoun shall include the plural, the masculine and the feminine.
15. It is agreed by the Lessor and Lessee that in this lease, where the words "one-eighth (1/8)" appear, it shall read "three-sixteenth (3/16)" in each case.
16. All storage tanks and tank battery operations shall be installed in any of the four corners of the leased premises to avoid interference with any irrigation circular sprinkler systems, unless otherwise negotiated between Lessor and Lessee.
17. Lessee is prohibited from assigning operations of this lease without prior approval from Lessor. Such approval will not be unreasonably withheld by Lessor.
18. Any use of fracking procedures on the subject property requires permission from the land owner.

SIGNED FOR IDENTIFICATION:

David G. Mai

Linda J. Mai
