RE: Approved Commingling CO091302
Clawson 1-21, Sec. 21-T31S-R30W, Meade County
API No. 15-119-21340-00-00

Dear Ms. Jansen:

Your Application for Commingling (ACO-4) for the above described well has been reviewed and approved by the Kansas Corporation Commission (KCC) per K.A.R. 82-3-123. Notice was examined and found to be proper per K.A.R. 82-3-135a. No protest had been filed within the 15-day protest period. This application, which was received by the KCC on September 16, 2013, concerns approval to simultaneously produce from the following sources of supply through the same tubing string in the same wellbore:

Source of Supply	Estimated Current Production			Perf Depth
	BOPD	MCFPD	BWPD	
St. Louis	25.0	35.0	6.0	5846-58
Chester Lime	0.0	355.0	0.0	5442-78
Cherokee	25.0	35.0	6.0	5284-90
Total Estimated Current Production	50.0	425.0	12.0	

Based upon the depth of the St. Louis formation perforations, total oil production shall not exceed 200 BOPD and total gas production shall not exceed 50% of the absolute open flow (AOF).

File Form ACO-1 upon completion of the well to commingle.

Commingling ID number CO091302 has been assigned to this approved application. Use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

Rick Hestermann
Production Department
