RE: Approved Commingling CO011404
Michael 2-22, Sec.22-T1S-R36W, Rawlins County
API No. 15-153-20947-00-00

Dear Mr.Reynolds:

Your Application for Commingling (ACO-4) for the above described well has been reviewed and approved by the Kansas Corporation Commission (KCC) per K.A.R. 82-3-123. Notice was examined and found to be proper per K.A.R. 82-3-135a. No protest had been filed within the 15-day protest period. This application, which was received by the KCC on January 16, 2014 concerns approval to simultaneously produce from the following sources of supply through the same tubing string in the same wellbore:

Source of Supply	Estimated Current Production			Perf Depth
	BOPD	MCFPD	BWPD	
Oread	89	0	88	3960-3963
Lansing/Kansas City	136	0	572	4068-4282
Total Estimated Current Production	225	0	660	

Based upon the depth of the Lansing/KS City formation perforations, total oil production shall not exceed 200 BOPD and total gas production shall not exceed 50% of the absolute open flow (AOF). **Production from the well must be adjusted to comply with the allowable limit of 200 BOPD unless an application for an increased allowable is approved by the commission.**

Commingling ID number CO011404 has been assigned to this approved application. Use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

Rick Hestermann
Production Department
