Purpose:	Plug and Abandon (P&A)					
Location:	Survey-Garcia, M.; Abstract-116					
To protect usable-quality groundwater at this location, the Groundwater Advisory Unit of the Railroad Commission of Texas recommends:						
The base of usable-quality water that must be protected is estimated to occur at a depth of 1100 feet below the land surface. Moreover, the interval from the land surface to a depth of 100 feet and the fresh water contained in the Goliad from a depth of 500 feet to 1100 feet must be isolated from water in overlying and underlying beds. This recommendation is applicable to all wells within a radius of 200 feet of this location.						
Note: Unless stated otherwise, this recommendation is intended to apply only to the subject well and not for area-wide use. Unless stated otherwise, this recommendation is for normal drilling, production, and plugging operations only.						
This determination is based on information provided when the application was submitted on 05/08/2019. If the location information has changed, you must contact the Groundwater Advisory Unit, and submit a new application if necessary. If you have questions, please contact us at 512-463-2741 or gau@rrc.texas.gov.

Re: Temporary Abandonment API 15-119-20775-00-00 ADAMS RANCH F-33 SE/4 Sec.04-35S-29W Meade County, Kansas

**Dear Penny Plumlee:** 

"Your temporary abandonment (TA) application for the well listed above has been approved. In accordance with K.A.R. 82-3-111 the TA status of this well will expire 05/14/2020.

\* If you return this well to service or plug it, please notify the District Office.

\* If you sell this well you are required to file a Transfer of Operator form, T-1.

\* If the well will remain temporarily abandoned, you must submit a new TA application, CP-111, before 05/14/2020.

You may contact me at the number above if you have questions.

Very truly yours,

Michael Maier"
