Re: Drilling Pit Application
HESKET 6
Sec.19-33S-03E
Cowley County, Kansas

Dear Nancy Burger:

District staff has inspected the above referenced location and has determined that an unsealed condition will present a pollution threat to water resources.

District staff has recommended that the Workover pit be lined with bentonite or native clay, constructed **without slots**, the bottom shall be flat.

NO completion fluids or non-exempt wastes shall be placed in the Workover pit.

If you have any questions or concerns please feel free to contact the District Office at (316) 337-7400.
