For KCC Use ONLY	
API # 15	_

IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

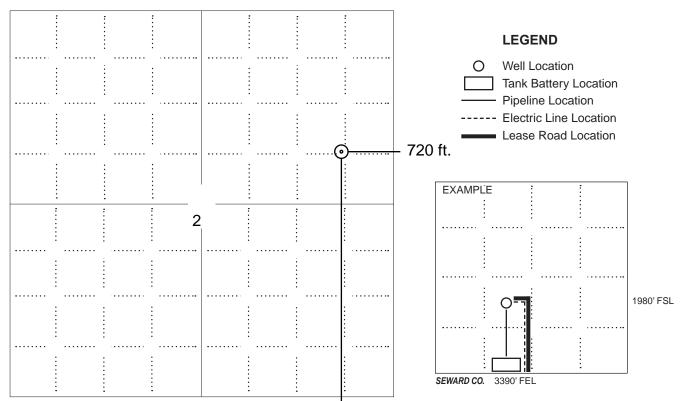

In all cases, please fully complete this side of the form. Include items 1 through 5 at the bottom of this page.

Operator:	Location of Well: County:
Lease:	feet from N / S Line of Section
Well Number:	feet from E / W Line of Section
Field:	Sec Twp S. R 🗌 E 🔲 W
Number of Acres attributable to well:	Is Section: Regular or Irregular
	If Section is Irregular, locate well from nearest corner boundary. Section corner used: NE NW SE SW

PLAT

Show location of the well. Show footage to the nearest lease or unit boundary line. Show the predicted locations of lease roads, tank batteries, pipelines and electrical lines, as required by the Kansas Surface Owner Notice Act (House Bill 2032).

You may attach a separate plat if desired.

NOTE: In all cases locate the spot of the proposed drilling locator.

3350 ft.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
- 5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

VOLUNTARY UNITIZATION AGREEMENT

That Kenneth Laymon and Regina Laymon, husband and wife, and Kenneth & Regina Laymon, LLC, a Kansas limited liability company, also d/b/a as Kenneth and/or Regina Laymon LLC, (collectively "Lessor") and Altavista Energy, Inc., a Kansas corporation ("Lessee") for and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, do hereby agree to unitize the following oil and gas leases, but only as to the real property specifically described below:

(1) **JONES LEASE**

Dated: July 25, 2018

Recorded: Book S98, Page 565

Lessor: Kenneth and/or Regina Laymon LLC
Lessee: Duke Oil and Gas Company LLC

Description: Northwest Quarter (NW/4) of Section 1, Township 24S, Range 16E,

containing 160 acres, more or less, Woodson County, Kansas.

(2) ALEXANDER LEASE

Dated: September 16, 2002 Recorded: Book 84 Misc., Page 75

Lessor: Kenneth Laymon and Regina Laymon, husband and wife

Lessee: Laymon Oil II, LLC

Description: But only as to the following described real property:

Northeast Quarter (NE/4) and the East Half of the Southeast Quarter (E/2 of SE/4) of Section 2, Township 24S, Range 16E, containing 240

acres, more or less, Woodson County, Kansas.

Lessor and Lessee hereby agree to unitize the above described real property and oil and gas leases (hereinafter collectively referred to as the "Unit"), as to all strata covered by the aforesaid leases underlying the real property specifically described above, for the production of oil and gas with or without distillate. Operations upon the Unit may be conducted as if the Unit had been included in a single oil and gas lease executed by Lessor in favor of Lessee and as if the leases contained all of the provisions of this agreement. The provisions of the leases described above are amended to the extent necessary to make them conform to the provisions of this Agreement, otherwise the leases remain in full force an effect. Operations upon and production from the Unit, except for the purpose of determining royalty payments, shall be treated as if such operations were upon or such production were from each of the above described leases whether or not the well or wells are located thereon. Production from and operations upon the Unit shall continue each lease in effect as to all lands

encumbered by each lease which is included in the Unit just as if the production were from or operations were upon each lease. In lieu of landowner royalty payable under the above described leases, Lessor shall receive one eighth (1/8) part of all oil produced from the Unit by Lessee and one eighth (1/8) of the gross proceeds at the well head for all gas produced from the Unit by Lessee. Lessee shall have the right to use, free of cost, gas, oil, and water produced from the Unit for its operations thereon.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns. However, no change or division in ownership of the land or royalties shall enlarge the obligations or diminish the rights of Lessee. No change in the ownership of the land or royalties shall be binding on the Lessee until after the Lessee has been furnished with a written transfer or assignment or a true copy thereof together with all original recorded instruments of conveyance or duly certified copies thereof necessary in showing a complete chain of title back to Lessor to the full interest claimed, and all advance payments of rentals made hereunder before receipt of said documents shall be binding on any and all direct or indirect assignees, grantees, devisees, administrators, executors, or heirs of lessor. In the event this Unit shall be assigned as to part or as to parts of the above described land and the holder or holders of the Unit as to any such part or parts shall make default in the payment of the proportionate part of the rent due from him or them, such default shall not operate to defeat or affect this Unit insofar as it covers a part or parts of said land upon which the lessee or any assignee hereof shall make due payment of said rentals.

If the Unit premises are now or may hereafter be owned in severalty or in separate tracts. The premises may nevertheless be developed and operated as one Unit, and all royalties accruing hereunder shall be divided among and paid to such separate owners in the proportion that the acreage owned by such separate owner bears to the entire acreage then included within the Unit. There shall be no obligation on the part of the lessee to offset wells on separate tracts into which the land covered by this Unit may now or hereafter be divided by sale, devise, descent or otherwise, or to furnish separate receiving or measuring tanks or devices.

Lessee may at any time and from time to time unilaterally surrender this Unit as to any part or parts of the Unit premises or any strata covered by this Unit by delivering or mailing a release thereof to Lessor, or by placing a release of record in the proper County. If the Unit is hereinafter surrendered, each of the above described oil and gas leases will continue to be valid and subsisting oil and gas leases and said individual lease agreements shall thereafter govern the operations upon the real property covered thereby.

Lessor hereby agrees to ratify, approve and confirm the above described oil and gas leases Lessor fully recognizes said oil and gas leases as being in full force and effect as though the undersigned had personally signed, sealed and acknowledged the same. Lessor further agrees that all covenants and conditions contained in the above described oil and gas leases have been complied with and that all sums due Lessor thereunder have been paid in full prior to signing this agreement. In the event that the parties do not have the legal authority to ratify said oil and gas leases, this Ratification shall be construed by the parties to be the granting of a new oil and gas lease with terms identical to those contained in the oil and gas leases described above and covering the entire property included in

Re: Drilling Pit Application Alexander East A-3 NE/4 Sec.02-24S-16E Woodson County, Kansas

Dear Phil Frick:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed <u>without slots</u>, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as practical after drilling operations have ceased.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 902-6450 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the District Office at (620) 902-6450.
