				held safety meeting	CATALOGRAPHICAL STATE OF THE ST		
				#3 - established circulation	on through 1" tubing at 750' Inside	4 1/2" casing, mixed and pu	mped 45 sks H-Plug
				cement, cement to surfac	e, pulled 1" from well, topped wel	olf w/ 10 sks cement, hooke	d to 4 1/2" casing,
				mixed and pumped 19 ski	s cament, pressured 300 PSI, shut	in casing, washed up tubing	and equipment
				#W-53 - established circu	ulation through 1" tubing at 750' in	side 2 3/8" casing, mixed an	d pumped 10 sks H-Plug
					ulation through 1" tubing at 750' in		
				cament, cement to surfac		i off w/ 5 sks cement, hooked	i to 2 3/6" casing,
				cament, cement to surface	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu	off w/ 5 sks cement, hooked t in casing, washed up tubing	i to 2 3/8" casing, g and equipment
				cament, cement to surface pumped 5 sks cement int #2 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 600 PSI, shu on through 1" tubing at 750' inside	off w/ 5 tks cement, hooked tin casing, washed up tubing 4 1/2" casing (200° of 2" on	t to 2 3/6" casing, g and equipment top of 4 1/2" casing),
			; ;	cament, cement to surface pumped 5 sks cement int #2 - astablished circulation mixed and pumped 40 sks	e, pulled 1" from well, topped well to perfs, pressured to 600 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface	off w/ 5 tks cement, hooked t in casing, washed up tubing 4 1/2" casing (200° of 2" on te, pulled 1" from well, toppe	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2"	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surfac casing (2" on top), mixed and pun	off w/ 5 tks cement, hooked t in casing, washed up tubing 4 1/2" casing (200° of 2" on te, pulled 1" from well, toppe	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2"	e, pulled 1" from well, topped well to perfs, pressured to 600 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface	off w/ 5 tks cement, hooked t in casing, washed up tubing 4 1/2" casing (200° of 2" on te, pulled 1" from well, toppe	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" annulus, shut in casing, y	e, pulled 1" from well, topped well to perfs, pressured to 600 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surfac casing (2" on top), mixed and pun washed up tubing and equipment	off w/ 5 tks cement, hooked t in casing, washed up tubing 4 1/2" casing (200° of 2" on e, pulled 1" from well, toppe aped 60 sks cement, circulate	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" annulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a M-Plug cement, cement to surfac casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside	off w/ 5 tks cement, hooked tin casing, washed up tubing 4 1/2" casing (200° of 2" on the, pulled 1" from well, topped toped 60 sks cement, circulate	to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 600 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surfac casing (2" on top), mixed and pun washed up tubing and equipment	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" ennulus, shut in casing, to #51 - established circulation	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on e, pulled 1" from well, toppe specific 60 sks cement, circulate the 2 1/2" casing, mixed and p	i to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up
				cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sk cement, hooked to 4 1/2" annulus, shut in casing, v #51 - established circulatic cement, cement to surface pumped 7 sks cement int	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun washed up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well	t in casing, washed up tubing 4 1/2" casing (200" of 2" on the pulled 1" from well, topped 80 sks cement, circulated 2 1/2" cusing, mixed and pulled 1 off with 5 sks cement, hook tin casing, washed up tubing	is to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up sumped 15 sks H-Plug sed to 2 1/2" casing g and equipment
	CREV			cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" annulus, shut in casing, v #51 - established circulation cement, cement to surface pumped 7 sks cement int	ce, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside is H-Plug cement, cement to surfac casing (2" on top), mixed and pun wished up tubing and equipment tion through 1" tubing at 750' inside ic, pulled 1" from well, topped well to perfs, pressured to 500 PSI, shu	tin casing, washed up tubing 4 1/2" casing (200" of 2" on the pulled 1" from well, topped the 2 1/2" casing, mixed and p l off with 5 sks cement, hook tin casing, washed up tubing	to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up numped 15 sks H-Plug ged to 2 1/2" casing g and equipment
Cement	on Cas	sey Kenned		cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sk cement, hooked to 4 1/2" annulus, shut in casing, to #51 - established circulation cement, cement to surface pumped 7 sks cement int	e, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside a H-Plug cement, cement to surface casing (2" on top), mixed and pun wished up tubing and equipment tion through 1" tubing at 750' inside ce, pulled 1" from well, topped well to perfs, pressured to 500 PSI, shu Average Rate	tin casing, washed up tubing 4 1/2" casing (200" of 2" on the pulled 1" from well, topped toped 60 sks cement, circulate the 2 1/2" casing, mixed and p toff with 5 sks cement, hook tin casing, washed up tubing	to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up numped 15 sks H-Plug ted to 2 1/2" casing g and equipment
Cement Pump Operat Sulk	or Cas			cament, cement to surface pumped 5 sks cement int #2 - established circulation mixed and pumped 40 sks cement, hooked to 4 1/2" annulus, shut in casing, v #51 - established circulation cement, cement to surface pumped 7 sks cement int	ce, pulled 1" from well, topped well to perfs, pressured to 800 PSI, shu on through 1" tubing at 750' inside is H-Plug cement, cement to surfac casing (2" on top), mixed and pun wished up tubing and equipment tion through 1" tubing at 750' inside ic, pulled 1" from well, topped well to perfs, pressured to 500 PSI, shu	tin casing, washed up tubing 4 1/2" casing (200" of 2" on the pulled 1" from well, topped the 2 1/2" casing, mixed and p l off with 5 sks cement, hook tin casing, washed up tubing	to 2 3/8" casing, g and equipment top of 4 1/2" casing), d well off with 10 sks ed cement to surface up numped 15 sks H-Plug ged to 2 1/2" casing g and equipment
