IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

In all cases, please fully complete this side of the form. Include items 1 through 5 at the bottom of this page.

Operator:	Location of Well: County:		
Lease:	feet from N / S Line of Section		
Well Number:	feet from E / W Line of Section		
Field:	Sec Twp S. R 🗌 E 🔲 W		
Number of Acres attributable to well:	Is Section: Regular or Irregular		
	If Section is Irregular, locate well from nearest corner boundary. Section corner used: NE NW SE SW		

PLAT

Show location of the well. Show footage to the nearest lease or unit boundary line. Show the predicted locations of lease roads, tank batteries, pipelines and electrical lines, as required by the Kansas Surface Owner Notice Act (House Bill 2032). You may attach a separate plat if desired.

NOTE: In all cases locate the spot of the proposed drilling locaton.

223 ft.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
- 5. The predicted locations of lease roads, tank batteries, pipelines, and electrical lines.

OIL & GAS LEASE

AGREEMENT, Made and entered into the 4th day of February, 2022, by and between Jonathan A. Novotny, aka: Jon Novotny, a single man, whose mailing address is 90247 SW 10th Avenue, Pratt, KS 67124, hereinafter called Lessor (whether one or more), and **SHELBY RESOURCES**, **LLC**, 3700 Quebec Street, Suite 100, PMB 376, Denver, CO 80207, hereinafter called Lessee:

Lessor, in consideration of ten and more Dollars (\$10.00) in hand paid, receipt of which is hereby acknowledged and of the royalties herein provided and of the agreements of the Lessee herein contained, hereby grants, leases and lets exclusively unto Lessee for the purpose of investigating, exploring, prospecting, drilling, mining and operating for and producing oil, liquid hydrocarbons, all gases and their respective constituent products, injecting gas, water, other fluids and air into subsurface strata, laying pipe lines, storing oil, building tanks, power stations, telephone lines, and other structures and things thereon to produce, save, take care of, treat, manufacture, process, store and transport said oil, liquid hydrocarbons, gases and their respective constituent products and other products manufactured therefrom, and temporary housing and otherwise caring for its employees, the following described land, together with an reversionary rights and after-acquired interest, therein situated in County of Pratt, State of Kansas described as follows, to-wit:

TOWNSHIP 28 SOUTH, RANGE 14 WEST OF THE 6TH PRINCIPAL MERIDIAN

Section 27: A tract of land in the Southeast Quarter (SE4), described as follows: Beginning at the Southeast corner of said Quarter Section; thence West along the South boundary line a distance of 1,805.7 feet; thence Northerly a distance of 433 feet; thence Westerly a distance of 111 feet; thence Northeasterly a distance of 712 feet; thence North a distance of 1,289.5 feet; thence Northeasterly a distance of 239.4 feet to the North boundary line of said Quarter Section; thence East along the North boundary line of the Quarter Section to the East boundary line; thence due South along the East boundary line to the point of beginning.

Containing 104.00 acres, more or less.

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF.

Subject to the provisions herein contained, this lease shall remain in force for a term of two (2) years (called primary term), and as long thereafter as oil, liquid hydrocarbons, gas or other respective constituent products, or any of them, is produced from said land or land with which said land is pooled.

In consideration of the premises the said Lessee covenants and agrees:

- To deliver to the credit of Lessor, free of cost the equal one eighth (1/8th) part of all oil produced and saved from the leased premises.
- 2nd. To pay Lessor for gas of whatsoever nature or kind produced and sold, or used off the premises, or used in the manufacture of any products therefrom, one-eighth (1/8th), at the market price at the well, (but, as to gas sold by Lessee, in no event more than one-eighth (1/8th) of the proceeds received by Lessee from such sales), for the gas sold, used off the premises, or in the manufacture of products therefrom, said payments to be made monthly.

This lease may be maintained during the primary term hereof without further payment or drilling operations. If the Lessee shall commence to drill a well within the term of this lease or any extension thereof, the Lessee shall have the right to drill such well to completion with reasonable diligence and dispatch, and if oil or gas, or either of them, be found in paying quantities, this lease shall continue and be in force with like effect as if such well had been completed within the term of years first mentioned.

If said Lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided for shall be paid the said Lessor only in the proportion which Lessor=s interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for Lessee=s operations thereon, except water from the wells of Lessor.

When requested by Lessor, Lessee shall bury Lessee=s pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now located on said premises without written consent of Lessor.

Lessee shall pay for damages caused by Lessee=s operations to growing crops on said land.

Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties shall be binding on the Lessee until after the Lessee has been furnished with a written transfer or assignment or a true copy thereof. In case Lessee assigns his lease, in whole or in part, Lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

Lessee may at any time execute and deliver to Lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered.

All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this lease shall not be terminated in whole or in part, nor lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or if such failure is the result of, any such Law, Order, Rule or Regulation.

Lessor shall have the right at any time to redeem for Lessor, by payment any mortgages, taxes or other liens on the above described lands, in the event of default of payment by Lessor, and be subrogated to the rights of the holder thereof, and the undersigned Lessors, for themselves and their heirs, successors and assigns, hereby surrender and release all right of dower and homestead in the premises described herein, in so far as said right of dower and homestead may in any way affect the purposes for which this lease is made, as recited herein.

Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof with other land, lease or leases in the immediate vicinity thereof, when in Lessee's judgment it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises, such pooling to be of tracts contiguous to one another and to be into a unit or units not exceeding 10 acres each in the event of an oil well, or into a unit or units not exceeding 40 acres each in the event of a gas well. Lessee shall execute in writing and record in the conveyance records of the county in which the land herein leased is situated an instrument identifying and describing the pooled acreage. The entire acreage so pooled into a tract or unit shall be treated, for all purposes except the payment of royalties on production from the pooled unit, as if it were included in this lease. If production is found on the pooled acreage, it shall be treated as if production is had from this lease, whether the well or wells be located on the premises covered by this lease or not. In lieu of the royalties elsewhere herein specified, Lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.

Lessee shall first obtain the approval of Lessor prior to any change of operator on this lease, which approval shall not be unreasonably withheld.

Upon request from Lessor, soil damage from oil and/or saltwater or other fluids resulting from Lessee's operations will be remediated as necessary to restore soil to the original condition as possible. Reasonable damage payments may be requested for the loss of land productivity until the soil is restored to the original condition.

IN WITNESS WHEREOF, the undersigned execute this instrument as of the day and year first above written

EXHIBIT "A"

Attached hereto and made a part hereof to that certain Oil and Gas Lease dated February 4, 2022, by and between Jonathan A. Novotny, aka: Jon Novotny, a single man, hereinafter called Lessor (whether one or more), and Shelby Resources, LLC, hereinafter called Lessee. In the event of conflict between the lease provisions and the provisions provided in this Exhibit "A", the provisions of this Exhibit "A" shall be binding.

- 1. Lessee shall bury pipelines and utility lines to a depth of not less than thirty-six (36) inches below the surface. All slush pits shall be filled and leveled within sixty (60) days after well completion or abandonment unless a longer time therefore is granted by Lessor, at Lessor's option.
- 2. Lessor reserves the right to designate all routes of ingress and egress. Prior to the construction of any roads, pipelines, tank battery installations, or installation of other equipment on the leased premises, Lessee shall consult and agree with the surface owner as to the location and direction of the same.
- 3. The Lessee shall fill all pits, ponds, remove all structures and reasonably restore the premises to the condition existing at the time this Oil and Gas Lease was executed. Within six (6) months after the expiration of the lease by its terms, Lessee shall have the obligation to restore subject lands made a part of this Oil and Gas Lease, as nearly as practicable.
- 4. Lessee shall maintain all roads, well sites and production facilities in a clean and respectable condition, reasonably free of weeds and trash.
- 5. Should a well drilled on the premises be abandoned for any reason, Lessee shall have 90 days from the dates of abandonment to remove all materials, including buried pipelines. Any such materials remaining on the premises after 90 days shall become the property of Lessor.
- 6. Lessee agrees that it will comply with all regulations and statutes of all government entities having jurisdiction over compliance with environmental legislation. Lessee further agrees to accept the leased premises in its "as is" condition. It is acknowledged that the Lessee has been advised to inspect the property to determine that it is suitable for the purpose intended and to ascertain that no environmental hazards or toxins are now present.
- 7. Lessor and Lessee will mutually agree to settle all damages occasioned to the land by Lessee's operations hereunder, including grass, livestock, crops and improvements. Upon completion of Lessee's drilling operations on each well, Lessee agrees to restore the premises to as nearly as practical the same condition as they were prior to commencing of operations hereunder. Lessee will pay the surface owner Two Thousand Five Hundred Dollars (\$2,500.00), in advance of ingress of drilling equipment, as a deposit toward damages to land and grass caused by Lessee's operations thereon. In the event Lessor and Lessee mutually agree that damages are greater than the aforementioned Two Thousand Five Hundred Dollars (\$2,500.00), Lessee shall settle promptly for excess damages. In the event damages are less than or equal to the deposit paid, no additional amount will be owed.
- 8. When preparing development locations, the topsoil shall be segregated to be replaced on the surface upon completion of drilling activities. Any terraces driven over or altered for drilling and tank locations shall be restored to original height and contour as nearly as practicable.
- 9. A sufficient dike shall be placed around tank batteries. Also tank batteries and pumping equipment units shall be fenced to restrain cattle in pastures or on ground that Lessor grazes cattle on milo stalks or wheat. Lessee or assigns agree with all applicable Federal, State and Local laws and regulations.
- Lessee and / or assigns will consult with Lessor as to the location of all roads on the property and will locate roads so as to minimize interference with the farming operations. It is recognized that Lessor may irrigate the above described land or apart thereof. Any and all activities and operations by lessee or its agents shall not interfere with Lessor's desired use of irrigation, including, at no cost to the Lessor, keeping said Lessee's pipe lines or laterals from interfering with said land being operated as and irrigated farm. Any tank battery placed by Lessee on the above described land shall be located in a place which will not unreasonably interfere with the operation of an irrigation system.
- 11. If any lands made a part of this Oil and Gas Lease are subject to or enrolled in the Conservation Reserve Program, Lessee shall reseed to grass all acres thereof affected by Lessee's operations and hold Lessors harmless from penalties or liquidated damages assessed under the Conservation Reserve Program as a result of Lessee's operations.

OIL & GAS LEASE

AGREEMENT, Made and entered into the 19rd day of November, 2021, by and between Ruth L. Starkey and Jerald L. Starkey, Co-Trustees of The Ruth L. Starkey Revocable Trust, dated 5/26/1998, whose mailing address is 1300 Bristol Road, Hutchinson, KS 67502, hereinafter called Lessor (whether one or more), and Shelby Resources, LLC, 3700 Quebec Street, Suite 100, PMB 376, Denver, CO 80207, hereinafter called Lessee:

Lessor, in consideration of Ten and more Dollars (\$10.00) in hand paid, receipt of which is hereby acknowledged and of the royalties herein provided and of the agreements of the Lessee herein contained, hereby grants, leases and lets exclusively unto Lessee for the purpose of investigating, exploring, prospecting, drilling, mining and operating for and producing oil, liquid hydrocarbons, all gases and their respective constituent products, injecting gas, water, other fluids and air into subsurface strata, laying pipe lines, storing oil, building tanks, power stations, telephone lines, and other structures and things thereon to produce, save, take care of, treat, manufacture, process, store and transport said oil, liquid hydrocarbons, gases and their respective constituent products and other products manufactured therefrom, and housing and otherwise caring for its employees, the following described land, together with any reversionary rights and after-acquired interest, therein situated in County of Pratt, State of Kansas described as follows, to-wit:

TOWNSHIP 28 SOUTH - RANGE 14 WEST, 6th P.M.

Section 34: NE4

Containing 160.00 acres, more or less.

Subject to the provisions herein contained, this lease shall remain in force for a term of Three (3) years from this date (called "primary term"), and as long thereafter as oil, liquid hydrocarbons, gas or other respective constituent products, or any of them, is produced from said land or land with which said land is pooled.

In consideration of the premises the said Lessee covenants and agrees:

- 1st. To deliver to the credit of Lessor, free of cost, in the pipe line to which Lessee may connect wells on said land, the equal one-eighth (1/8th) part of all oil produced and saved from the leased premises.
- 2nd. To pay Lessor for gas of whatsoever nature or kind produced and sold, or used off the premises, or used in the manufacture of any products therefrom, one-eighth (1/8th), at the market price at the well, (but, as to gas sold by Lessee, in no event more than one-eighth (1/8th) of the proceeds received by Lessee from such sales), for the gas sold, used off the premises, or in the manufacture of products therefrom, said payments to be made monthly. Where gas from a well producing gas only is not sold or used, Lessee may pay or tender as royalty One Dollar (\$1.00) per year per net mineral acre retained hereunder, and if such payment or tender is made it will be considered that gas is being produced within the meaning of the preceding paragraph. However, Lessee's ability to retain the lease by payment of such "shut in" royalties is not indefinite and if no actual sale of gas is made within five years of completion of a gas well, then this lease shall terminate and expire.

This lease may be maintained during the primary term hereof without further payment or drilling operations. If the Lessee shall commence to drill a well within the term of this lease or any extension thereof, the Lessee shall have the right to drill such well to completion with reasonable diligence and dispatch, and if oil or gas, or either of them, be found in paying quantities, this lease shall continue and be in force with like effect as if such well had been completed within the term of years first mentioned.

If said Lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided for shall be paid the said Lessor only in the proportion which Lessor's interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for Lessee's operations thereon, except water from the wells of Lessor.

Lessee shall bury Lessee's pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now located on said premises without written consent of Lessor.

Lessee shall pay for damages caused by Lessee's operations to growing crops on said land.

Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties shall be binding on the Lessee until after the Lessee has been furnished with a written transfer or assignment or a true copy thereof. In case Lessee assigns this lease, in whole or in part, Lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment. It is agreed and understood by and between Lesser and Lessee, and their successors and assigns that subject lease is subject to a side letter agreement and any successor or assignee will be bound by the terms therein.

Lessee may at any time execute and deliver to Lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered except those obligations relating to any plugging of wells or restoration of the portion surrendered.

All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this lease shall not be terminated in whole or in part, nor lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or if such failure is the result of, any such Law, Order, Rule or Regulation.

Lessor hereby agrees that the Lessee shall have the right at any time to redeem for Lessor, by payment any mortgages, taxes or other liens on the above described lands, in the event of default of payment by Lessor, and be subrogated to the rights of the holder thereof, and the undersigned Lessors, for themselves and their heirs, successors and assigns, hereby surrender and release all right of dower and homestead in the premises described herein, in so far as said right of dower and homestead may in any way affect the purposes for which this lease is made, as recited herein.

Lessee, subject to the prior written consent of Lessor, may pool or combine the acreage covered by this lease or any portion thereof with other land, lease or leases in the immediate vicinity thereof, when in Lessee's judgment it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises, such pooling to be of tracts contiguous to one another and to be into a unit or units not exceeding 40 acres each in the event of an oil well, or into a unit or units not exceeding 160 acres each in the event of a gas well. Lessee shall execute in writing and record in the conveyance records of the county in which the land herein leased is situated an instrument identifying and describing the pooled acreage. Lessor's written consent to pooling will not be unreasonably withheld. The entire acreage so pooled into a tract or unit shall be treated, for all purposes except the payment of royalties on production from the pooled unit, as if it were included in this lease. If production is found on the pooled acreage, it shall be treated as if production is had from this lease, whether the well or wells be located on the premises covered by this lease or not. In lieu of the royalties elsewhere herein specified, Lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved. In the event this lease is extended beyond the primary term solely by production from a well in a unit which comprises a portion of the lands covered hereby and other lands, Lessee agrees to release all lands not included in any such unit one (1) year subsequent to the end of the primary term

Lessee agrees to consult with Lessor prior to conducting any surface operations so as to cause the least amount of interference to Lessor's irrigation operations on the leased premises, including but not limited to using low profile pumping equipment on any producing well drilled by Lessee. Lessee further agrees not to locate any pits where there are currently tire tracks for Lessor's irrigation system.

In the event production is secured and a tank battery installation is necessary, such tank battery shall be placed at a location mutually agreeable by Lessor and Lessee.

Lessee shall not go upon or conduct any operations upon the irrigated portion of the above-described real estate between April 1st and November 1st in any calendar year unless given written permission by the Lessor.

Upon the establishment of a drillsite and the excavation of the reserve pit, all topsoil shall be removed and piled separately and shall be returned to the surface when this pit is filled. Lessee further agrees to clean up the drillsite area and remove all trash and debris and to restore the surface of the land damaged by Lessee's operations to its original contour and condition as nearly as is practicable

Lessee shall pay any actual damages to growing crops, pasture grasses, fences and irrigation systems which may arise from Lessee's maintenance and operation of said drillsite(s) / production operations.

No wells drilled on the leased premises shall be used for saltwater disposal or other waste disposal without the written consent of Lessors. Provided, however, the terms of this paragraph do not apply to the disposal of salt water produced from a well or wells held by production where the minerals are owned by Lessor or lands pooled therewith.

Lessee shall not have the right to use water from Lessors' pond(s) or water wells for any purpose without Lessors' written consent, and Lessee will not conduct any exploration or drilling operations within 200 feet of any water well on the leased premises and further agrees that any water well damaged by Lessee's operations shall be re-drilled at Lessee's sole expense.

IN WITNESS WHEREOF, the undersigned execute this instrument as of the day and year first above written.

Re: Drilling Pit Application N-S Unit #1-27 SE/4 Sec.27-28S-14W Pratt County, Kansas

Dear Chris Gottschalk:

District staff has inspected the above referenced location and has determined that an unsealed condition will present a pollution threat to water resources.

District staff has recommended that the reserve pit be lined with bentonite or native clay, constructed <u>without slots</u>, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again within 72 hours after drilling operations have ceased.

KEEP PITS away from draw/drainage. KEEP PITS on any except, North side of stake.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 682-7933 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to **Drill**. If you have any questions or concerns please feel free to contact the District Office at (620) 682-7933.
