RE: Relative Energy, Inc.
Application for 3 Year extension of TA Status
Sidney Johnson Trust #1
19-17-3W, McPherson County

The produced water from the Sidney Johnson Trust #2 now travels 1.75 miles to the disposal well in the CSW4 of section 7-17-3W. (See map below) It crosses Kansas Highway 4 and 3 gravel roads and passes under a protected wetland marsh (old sinkhole). If we could make the #1 into a re-pressuring well as was planned, we would keep the water on the lease and greatly decrease the possibility of ecological damage along the current line.

The re-pressuring would increase the production on the #2 which would benefit the land/mineral owners and the working interest owners. We have proven that re-pressuring the Maquoketa dolomite works. In some cases we have doubled our production. The #2 is now capable of making a little over 2 bopd and makes 170 bwpd.

Lines to the proposed Sidney Johnson Trust #1 RW are already in place. The well is ready to use except for tubing. The well was re-completed by cementing 4.5" casing inside 5.5" casing with cement circulating to the surface. The original operators of this well had deepened it into the Maquoketa dolomite and used it for disposal. We plugged it back to within 5' of the top of the open hole.

Re: Temporary Abandonment API 15-113-02214-00-03 SIDNEY JOHNSON TRUST 1 NW/4 Sec.19-17S-03W McPherson County, Kansas

## Dear Mark Casebeer:

Your application for Temporary Abandonment (TA) for the above-listed well is denied for the following reasons(s):

## Well plugged on 9/8/2022

Pursuant to K.A.R. 82-3-111, the well must be plugged, or returned to service, or obtain temporary abandonment status by 11/23/2022.

This deadline does NOT override any compliance deadline given to you in any Commission Order.

You may contact me if you have any questions.

Sincerely, Keith Karlin, ECRS KCC DISTRICT 2
