WHEREAS, each of the above described Leases contain pooling and unitization clauses;

WHEREAS, it is in JASPAR's judgment that the pooling and/or unitization of certain lands covered by the Oil and Gas Leases will result in the conservation of resources and the economic location and spacing of wells.

The Pooled Area created hereby shall be operated as an entirety for the exploration, development and production of all oil, gas and other hydrocarbons within or produced from the Pooled Area ("Pooled Substances"), rather than as separate tracts, in accordance with the following provisions:

1. Drilling or reworking operations on or production obtained from any portion of the Pooled Area shall constitute drilling or reworking operations on or production from each of the tracts within the Pooled Area;
2. All production of Pooled Substances shall be allocated to the separate tracts in the proportion that the number of surface acres in each such tract bears to the total number of surface acres within the entire Pooled Area, which is described as follows:
 - a. Tract A 94.2% (9.42 acres in 10 acre unit)
 - b. Tract B 5.80% (0.58 acres in 10 acre unit)
3. That portion of the production of Pooled Substances so allocated to each separate tract shall, when produced, be deemed for all purposes to have been produced from such tract by a well location thereon.
4. All rights to the production of Pooled Substances, including royalties and other payments on production, shall be determined by the lease based upon the above allocation, and in lieu of the actual production of Pooled Substances from each separate tract.
5. If the lease covering lands within the Pooled Area contain a provision which requires the filing of a written designation or declaration instrument of record in order to effectuate unitization, consolidation or pooling, the filing of this instrument of record in Rooks County, Kansas shall satisfy such requirement; provided, however, that the filing of this instrument shall not thereby exhaust any pooling or unitization rights and powers of the undersigned which were granted and delegated in the lease.
6. The undersigned expressly reserves the right to correct, amend, or revise this Declaration of Pooling from time to time if as it deems necessary, in accordance with the specific provisions contained in the lease. NE/4 Sec.10-06S-20W
Rooks County, Kansas

Dear Shane Vehige:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed **without slots**, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit within 72 hours of completion of drilling operations.

KEEP PITS away from draw/drainage.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (785) 261-6250 when the fluids have been removed. Please file form CDP-5 (August 2008), Exploration and Production Waste Transfer, through KOLAR within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the District Office at (785) 261-6250.
