BETHELL LEASE 1
NW/4 Sec.16-08S-23W
Graham County, Kansas

Dear Paula White:

On November 08, 2023 an operator well plugging report (CP-4) was received, which indicated to Staff that BEREXCO LLC is the current operator of the BETHELL LEASE lease. However, Conservation Division records indicate you have not filed a Request for Change of Operator, Transfer of Injection or Surface Pit Permit (Conservation Division Form "T-1") transferring operator responsibility to BEREXCO LLC for the BETHELL LEASE lease. BEREXCO LLC therefore remains the Commission's operator of record and party responsible for the proper care and control of BETHELL LEASE lease.

K.A.R. 82-3-136(a) provides that if operator responsibility is transferred, the past operator shall report the transfer to the Conservation Division with 30 days of the change upon a form prescribed by the Commission (the T-1); and/or K.A.R. 82-3-410(a) provides that authority to operate an injection well shall not be transferred from one operator to another without the approval of the Conservation Division. Furthermore, the transferring operator shall in writing notify the Conservation Division of its intent to transfer the injection authority, on a form prescribed by the Commission, the T-1, and in compliance with K.A.R. 82-3-136.

Staff will provide you with 28 days from this letter's date to bring the BETHELL LEASE lease into compliance with K.A.R. 82-3-136 and/or K.A.R. 82-3-410(a). As such, you have until December 06, 2023 to bring the BETHELL LEASE lease into compliance. To bring your operations into compliance, you need to file a T-1 with Conservation Division for the BETHELL LEASE lease. A blank T-1 is enclosed with this letter. The T-1 is also available on the Conservation Division's website, at <http://kcc.ks.gov/conservation/forms/index.htm>, or upon request in the Conservation Division's central office in Wichita or any of the Conservation Division's district offices. If BEREXCO LLC believes it is still the operator of the BETHELL LEASE lease, you need to contact Jonelle Rains, the Conservation Division's Supervisor of Environmental Protection and Remediation, immediately to address the situation. Jonelle Rains may be reached at the Conservations Division's central office in Wichita, at the contact information listed on the bottom of this page.

If by December 06, 2023 the Conservation Division has not received the T-1 requested, or you have not contacted Jonelle Rains and resolved this situation, Staff may refer the matter to the Conservation Division legal staff with a recommendation for an administrative penalty or penalties. Violations of K.A.R. 82-3-136(a) and K.A.R. 82-3-410(a) are punishable by up to a \$1,000 fine for the first violation, \$2,000 for a second, and \$3,000 and operator license review for a third violation.

Please contact the Conservation Division immediately, or provide the requested information by December 06, 2023, to remedy the above possible violation(s) and avoid further compliance action by the Commission. Please include a copy of this letter with the completed T-1 form upon filing with the Conservation Division.

Sincerely,
Production Department Supervisor
