1. Lessor, in consideration of Ten Dollars (\$ 10.00) and more, in hand paid, receipt of which is hereby acknowledged and of the royalties herein provided and of the agreements of the lessee herein contained, hereby grants, leases and lets exclusively unto lessee for the purpose of investigating, exploring by geophysical and other means, prospecting, drilling, underground mining and operating for and producing oil, liquid hydrocarbons, all gases, and their respective constituent products, injecting gas, water, other fluids and air into subsurface strata, laying pipe lines, storing oil, building tanks, power stations, telephone lines, and other structures and things thereon to produce, save, take care of, treat, manufacture, process, store and transport said oil, liquid hydrocarbons, gases and their respective constituent products and other products manufactured therefrom, and temporary housing and otherwise caring for its employees, the following described land, together with any reversionary rights and after-acquired interest, therein situated in the County of Cheyenne, State of Kansas, described as follows, to wit:

**Township 5 South, Range 37 West**  
✓ **Section 11: SE/4**

2. Subject to the provisions herein contained, this lease shall remain in force for a term of Two (2) years from this date (called "primary term"), and as long as thereafter as oil, liquid hydrocarbons or gas or other respective constituent products, or any form of them is produced from said land or land with which said land is pooled.
3. In consideration of these premises lessee covenants and agrees:
  - a. To deliver to the credit of lessor, free of cost, in the pipeline to which lessee may connect wells on said land, the equal 15% part of all oil produced and saved from the leased premises.
  - b. To pay lessor for gas of whatsoever nature or kind produced and sold or used off the premises, or used in the manufacture of any products therefrom, 15%, at the market price at the well, (but, as to gas sold by lessee, in no event more than 15% of the proceeds received by lessee from such sales), for the gas sold, used off the premises, or in the manufacture of products therefrom, said payments to be made monthly. Where gas from a well producing gas only is not sold or used, lessee may pay or tender as royalty One Dollar (\$1.00) per year per net mineral acre retained hereunder, and if such payment or tender is made it will be considered that gas is being produced within the meaning of the preceding paragraph.
4. This lease may be maintained during the primary term hereof without further payment or drilling operations. If the lessee shall commence to drill a well within the term of this lease or any extension thereof, the lessee shall have the right to drill such well to completion with reasonable diligence and dispatch, and if oil or gas, or either of them, be found in paying quantities, this lease shall continue and be in force with like effect as if such well had been completed within the term of years first mentioned.
5. If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided for shall be paid to lessor only in the proportion which lessor's interest bears to the whole and undivided fee.
6. Lessee shall have the right to use, free of cost, gas, oil and water produced on the leased premises for lessee's operations thereon, except water from wells of lessor.
7. When requested by the lessor, lessee shall bury lessee's pipelines below plow depth.

10. Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.
11. If the estate of either party hereto is assigned and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to its heirs executors, administrators, successors or assigns, but no change in the ownership of the lands or assignment of rentals or royalties shall be binding on lessee until after

the lessee has been furnished with a written transfer or assignment or a true copy thereof. In case lessee assigns this lease, in whole or in part, lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

- 12. Lessee may at any time execute and deliver to lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered.
- 13. All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this lease shall not be terminated, in whole or in part, nor lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or if such failure is the result of, any such Law, Order, Rule or Regulation.

Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the lessee shall have the right at any time to redeem for lessor, by payment any mortgages, taxes or other liens on the above described lands, in the event of default of payment by lessor, and be subrogated to the rights of the holder thereof, and the undersigned lessors, for themselves and their heirs, successors and assigns, hereby surrender and release all right of dower and homestead in the premises described herein, in so far as said right of dower and homestead may in any way affect the purposes for which this leases is made, as recited herein.

Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof with other land, lease or leases in the immediate vicinity thereof, when in lessee's judgment it is necessary or advisable to do so in order to properly develop and operate said lease premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises, such pooling to be of tracts contiguous to one another and to be into a unit or units not exceeding 40 acres each in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas well. Lessee shall execute in writing and record in the conveyance records of the county in which the land herein leases is situated an instrument identifying and describing the pooled acreage. The entire acreage so pooled into a tract or unit shall be treated, for all purposes except the payment of royalties on production from the pooled unit, as if it were included in this lease. If production is found on the pooled acreage, it shall be treated as if production is had from this lease, whether the well or wells be located on the premises covered by this lease or not. In lieu of the royalties elsewhere herein specified, lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.

**Oil and Gas Lease****Exhibit "A"**

**SLUSH/MUD PITS:** It is understood and agreed that the Lessee when constructing or preparing the well site and Slush (or mud) pits shall construct the same in such a manner that the topsoil is removed separate from the sub soils, and that the top soil and the sub soils will not be mixed when the well site is restored and/or the slush pit is filled. When restoring the well site or the slush pit to its prior condition, Lessee shall use sub soils first, and the top soil last, so that the well site and slush pit will be returned to or near its original condition as possible. The well site and slush pits will be constructed and filled in compliance with state regulations.

**FENCE/GATE CLAUSE:** Lessee shall exercise reasonable care to protect the livestock located on the leased premises from injury, death or escape. In so doing, Lessee agrees to promptly repair any portion of fence damaged or impaired as a result of its operations on the leased premises and to install gates, upon request of Lessor, on all Lessee's routes of ingress and egress. In locations where cattle are grazed and upon Lessor's request, Lessee shall fence, or otherwise prevent cattle access to, the drill site, all pits, pump jacks, tank batteries and other equipment used by Lessee.

**MUTUAL CONSENT CLAUSE:** If Lessor owns the surface of the leased premises, Lessor and Lessee shall make reasonable efforts to mutually agree on the location of well sites, access roads, pipelines or any above ground appurtenances that will be located on the leased premises, and neither party's consent shall be unreasonably withheld. However, in the event an agreement cannot be worked out as to a particular location, the Lessee's precise location shall prevail.

**PROPERTY RESTORATION:** Lessee shall restore its well site location to its original height and contour, as nearly as is practicable. Lessee shall fill all pits, ponds, and remove all its above ground structures and equipment on the leased premises within six (6) months weather permitting after Lessee's abandonment of the formerly producing lease.

**SALTWATER DISPOSAL CLAUSE:** The Lessee shall not be permitted to use any well drilled on the Leased Premises as a saltwater disposal well without the written consent of the Lessor and without compensating the Lessor for the use thereof, except for the disposal of salt water produced from wells located on the Leased Premises.
