Please provide a brief, chronological description of all the events that led to this penalty recommendation:

October 23, 2025 File review found the Boxberger C 2. could be in violation of KAR 82-3-111. I requested an inspection of the well.

October 27, 2025 ECRS did an inspection of the well and found it to be inactive. Well bore does not have tubing and rods in it.

December 29, 2025 An NOV for CP-111 was sent to the Operator with a deadline of January 26, 2026.

March 31, 2026 A review of files found Weigel Oil Company never filed for a CP-111 or responded to CP-111 NOV letter sent September 30, 2025. Further research showed last Production listed sold was September 2020. I sent a request for the ECRS in the area to do a follow up inspection.

April 07, 2026 ECRS Rick Heine did a follow up inspection and found the well to still be inactive.

April 16, 2026 Sent in Penalty order for failure to comply with KAR 82-3-111
