Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

- ☐ I have not provided this information to the surface owner(s). I acknowledge that, because I have not provided this information, the KCC will be required to send this information to the surface owner(s). To mitigate the additional cost of the KCC performing this task, I acknowledge that I must provide the name and address of the surface owner by filling out the top section of this form and that I am being charged a \$30.00 handling fee, payable to the KCC, which is enclosed with this form.

If choosing the second option, submit payment of the \$30.00 handling fee with this form. If the fee is not received with this form, the KSONA-1 form and the associated Form C-1, Form CB-1, Form T-1, or Form CP-1 will be returned.

RE: Explanation for well transfer

To Whom It May Concern:

In November of 2024, S&B Operating assigned several leases in Butler County to Novy Oil and Gas. Those leases were subject to a KCC compliance agreement, of which both Novy and S&B executed. Novy worked on several of the wells among the leases, but was unable to keep up and both S&B's and Novy's license were suspended several months ago. Kansas Resource Exploration and Development has common management with S&B Operating, and while the most recent license renewal went through for KRED it was brought to their attention that S&B's license was suspended due to the compliance agreement not being adhered to (S&B doesn't currently operate any wells in Kansas, so they weren't keeping track of this). Novy has been tasked by the KCC with getting the remaining wells on the compliance agreement in compliance to restore his license and S&B's, and keep KRED's active.

In order to do that, he needs to have the wells under an active operator, so KRED has agreed to take the wells so that they can be worked on by them and other licensed service providers to get back into compliance. Once all wells are in compliance, KRED will transfer the wells back to Novy or to another licensed operator.

If you have any questions, please call or email.

Phil Frick
