****

Date Drilling Began: 6/23/1966

Date Drilling Completed: 7/19/1966

Please show location of well in section:

Oil or gas test was completed as a dry hole: _____

Hole was not drilled: _____ Elevation: Derrick floor _____

Total depth of hole: 675 ft Kelly Bushing _____ Ground _____

Plug back total depth: _____ Electric or other logs were run: Yes x No _____

If OWWO, give new footage drilled: _____ Well was Cored: Yes x No _____

~~Field~~ Name: Gardner field ~~Drill Stem Test~~ Run: Yes ___ No ___

Field dam well

Name of Company purchasing oil or gas: Page Oil Co, Gardner, Kansas.

****

Initial Potential or Production: Barrels of oil/day Came in approx 30 b

Barrels of water/day 0; Thousand cu ft gas/day 0

Oil Gravity 22 °API; Pay Depth (Bottom) 849 to 859

Net Pay Thickness 10 Ft.; Name of Pay Zone Bartlesville

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated. At this time can not find driller's log, will send it later.

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc. American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.

CSD 2 - 6/22/66
