E/2 SW/4 Need better spot location.

Plugged 1/19/66

Date Drilling Began January 17, 1966 Date Drilling Completed January 18, 1966

Hole T.D. 680 feet P.B.T.D. _____ if OWWO, new footage drilled _____

Elev.: DF _____ KB _____ Ground _____ Oil or gas test was completed as dry hole X

Deepest Formation penetrated _____ Squirrel Sand _____ Hole was not drilled _____

Electric or Other Logs Run: Yes _____ No X Well was Cored: Yes _____ No X Drill Stem Test Run: Yes _____ No _____

Paula Rantoul
well Dev.
Field Name (Pressonville) This is a New Field _____ Field Extension _____ New Pay Zone _____

Oil or Gas Purchaser: None

Initial Potential or Production: _____ BOPD, _____ BWPD, _____ Mcfg/day. Oil Gravity _____

Pay Depth (Bottom) _____, Net Pay Thickness _____, Pay Formation _____

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated.

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc., American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.
