Mr. M. A. Benear,
P.O. Box 2025,
Tulsa, Oklahoma.

Dear Sir:

We have an acreage Contract with T. K. Simmons, subject to a well being drilled in the SE corner of the NE¼ of section 32-22-12E, Greenwood County, Kansas.

This test missed the Bartlesville sand, and topped the Mississippi lime at 1845', total depth is 1940 feet, with five bailers of water per hour. This depth tested the first break in the Mississippi lime, and I was present when the hole was measured up.

Yours very truly,
Chas. L. Sherwood.
