COUNTY WOODSON

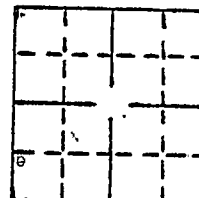

FARM NO. AND NAME 1 FRED COFFIELD

LOCATION

NW SW SW SEC 16 25S 16E

Date Drilling Began: 11-13-1967

Please show
location of
well in:
section:

Date Drilling Completed: 11-14-1967

Oil or gas test was
completed as a dry hole:

Name of
formation at total depth:
Squirrel-2 zones (864-882) (910-930)

Elevation: Derrick floor 983

Total depth of hole: 970

Kelly Bushing 985 Ground 981

Plug back total depth: Cemented pipe
at 962'

Electric or other
logs were run: Yes X No

If OWWO, give new
footage drilled:

Well was Cored: Yes X No

Field Name: WC

Drill Stem Test Run: Yes No X

Name of Company purchasing oil or gas: MacLaskey Transport (none sold to date)

Initial Potential, or Production: Barrels of oil/day 25;

Barrels of water/day none; Thousand cu ft gas/day none

Oil Gravity 25.0 °API; Pay Depth (Bottom) .930'

Net Pay Thickness Ft.; Name of Pay Zone Squirrel

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated.

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc. American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.
