Oil Gravity _____ °API; Pay Depth (Bottom) _____
Net Pay Thickness 43 Ft.; Name of Pay Zone Zone 1

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated.

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc. American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.

Miss Margaret Oros
State Geological Survey
University of Kansas
Lawrence, Kansas 66044

Dear Miss Oros:

Attached is an incomplete copy of Kansas Well Completion Report form for our No. 1 Core Test, Nelson "A" Lease, Savonburg Field, Allen, County, Kansas.

The subject well has not been completed. Ownership of the well has been transferred to the Savonburg Oil Company. The original completion report has been transferred to their local representative for further handling. Their local representative is:

Stan Cannan
701 South Highland Street
Chanute, Kansas 66720

If you need further information, please advise.

Very truly yours,

G. B. Barnett
Field Superintendent
