Date Drilling Began: 10 Jan 67Date Drilling Completed: 15 Jan 67

Please show
location of
well in
section:

Oil or gas test was
completed as a dry hole: _____

Name of
formation at total depth: Cherokee

Elevation: Derrick floor _____

Total depth of hole: 400

Kelly Bushing _____ Ground _____

Plug back total depth: 374

Electric or other
logs were run: Yes _____ No X

If OWWO, give new
footage drilled: _____

Well was Cored: Yes _____ No XField Name: Walnut SEDrill Stem Test Run: Yes _____ No XName of Company purchasing oil or gas: Mid-America Ref. Co.

Initial Potential or Production: Barrels of oil/day 1;Barrels of water/day 1; Thousand cu ft gas/day noneOil Gravity 28 °API; Pay Depth (Bottom) 374Net Pay Thickness 13 Ft.; Name of Pay Zone Bartchill

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated.

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc. American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.
